An insider's detailed chronicle of the inner workings of the contemporary art world. The world of contemporary art has become more globalized and transparent in the last few decades, yet it is still perceived as closed-off and obscure. In *A Year in the Art World*, Matthew Israel takes the reader on a cross-continental journey through a year in the field of art, lifting the veil on a culture that emerges as diverse, adventurous, nuanced, and meaningful. From Los Angeles and New York to Paris

and Hong Kong, Israel encounters artists, curators, critics, gallerists, and institutions, uncovering the working lives of these art-world figures from the renowned to the unseen. Drawing on exclusive interviews and expertly researched content, Israel ventures into the inner workings of the art industry to ask: What is it that people in the art world actually do? What drives interest in working with art? How do artworks acquire value? And how has technology transformed today's art world? Anchoring the narrative in the history, economics, and cultural dynamics of the field, this fascinating story reveals how "the art world" describes a realm that is both surprisingly vast and deeply interconnected. It's 1924 and there have been many changes at Downton Abbey since the family and their servants first welcomed us there twelve years ago. A generation of men has been tragically lost at the front; children are once again breathing new life into the great house; a chauffeur now sits at the Grantham dinner table; and skirt hems continue to rise. Still, in the midst of all this upheaval, many things at Downton remain largely unchanged. Nanny still holds sway in the nursery, and there are still summer fetes to be organized, menus to be planned, and farms to be run. This gorgeous book explores the seasonal events and celebrations of the great estate—including house parties, debutantes, the London Season, yearly trips to Scotland, the sporting season, and, of course, the cherished rituals of Christmas. Jessica Fellowes and the creative team behind Downton Abbey invite us to peer through the prism of the house as we learn more about the lives of our favorite characters, the actors who play them, and those who bring this exquisite world to real life. *A Year in the Life of Downton Abbey* is packed full of exclusive new photographs, with a delicious array of traditional British recipes adapted for modern kitchens: kedgeree, orange marmalade, asparagus tarts, cream of watercress soup, Irish stew, lemon barley water, meringues with red berries, parmesan straws, Christmas pudding with brandy butter and more. From the moment when the servants light the fires against the chill of January, through the last family game of charades and the servants' Christmas ball, this magnificent book invites us to take part in twelve months in the life of Downton Abbey. Illustrates one year of daily life at a

medieval castle. In this dramatic adaptation of her award-winning, bestselling memoir, Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. "This happened on December 30, 2003. That may seem a while ago but it won't when it happens to you . . ." Michiko Kakutani in The New York Times called the memoir that was the basis for the play, "an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage." The first theatrical production of The Year of Magical Thinking opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare. This groundbreaking memoir offers a glimpse into an activist's journey to finding and cultivating community and the continued fight for disability justice, from the founder and director of the Disability Visibility Project In Chinese culture, the tiger is deeply revered for its confidence, passion, ambition, and ferocity. That same fighting spirit resides in Alice Wong. Drawing on a collection of original essays, previously published work, conversations, graphics, photos, commissioned art by disabled and Asian American artists, and more, Alice uses her unique talent to share an impressionistic scrapbook of her life as an Asian American disabled activist, community organizer, media maker, and dreamer. From her love of food and pop culture to her unwavering commitment to dismantling systemic ableism, Alice shares her thoughts on creativity, access, power, care, the pandemic, mortality, and the future. As a self-described disabled oracle, Alice traces her origins, tells her story, and creates a space for disabled people to be in conversation with one another and the world. Filled with incisive wit, joy, and rage, Wong's Year of the Tiger will galvanize readers with big cat energy. An argument that we have a moral duty to explore other planets and solar systems--because human life on Earth has an expiration date. Inevitably, life on Earth will come to an end, whether by climate disaster, cataclysmic war, or the death of the sun in a few billion years. To avoid extinction, we will have to find a new home planet, perhaps even a new solar system, to inhabit. In this provocative and fascinating book, Christopher Mason argues that we have a moral duty to do just that. As the only species aware that life on Earth has an expiration date, we have a responsibility to act as the shepherd of life-forms--not only for our species but for all species on which we depend and for

those still to come (by accidental or designed evolution). Mason argues that the same capacity for ingenuity that has enabled us to build rockets and land on other planets can be applied to redesigning biology so that we can sustainably inhabit those planets. And he lays out a 500-year plan for undertaking the massively ambitious project of reengineering human genetics for life on other worlds. As they are today, our frail human bodies could never survive travel to another habitable planet. Mason describes the toll that long-term space travel took on astronaut Scott Kelly, who returned from a year on the International Space Station with changes to his blood, bones, and genes. Mason proposes a ten-phase, 500-year program that would engineer the genome so that humans can tolerate the extreme environments of outer space--with the ultimate goal of achieving human settlement of new solar systems. He lays out a roadmap of which solar systems to visit first, and merges biotechnology, philosophy, and genetics to offer an unparalleled vision of the universe to come. 'It was time, the editor told me, for a more modern approach to Germany... The three of us were the backbone of the British press corps. No cliché about Germany left the country without us having given it our seal of approval.' Laugh-out-loud funny, this is the memorable story of an English journalist's adventures – including his encounters with women – as he tries to get to grip with the Germans. Facing bankruptcy, Roger is advised by his accountant to make use of a legal loophole: in Germany married couples have their tax bill halved. So the search is on for a German bride. Meanwhile his father, a former bomber pilot and war hero, is also in financial trouble and is threatening to move to Germany and sponge off his son. The combination of financial, romantic and parental crises sets in train a hilarious romp during which we discover more than we really wanted to about speed-dating and nudist beaches, the British media obsession with Adolf Hitler and how to cheat at the Berlin marathon, curry wurst and stuffed cabbage. Writing incisively and almost without prejudice, Roger Boyes describes the peculiarities of everyday life in Germany. The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The

Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations.

One Year in the Life of a Dog By LTC Clifton H. Deringer Jr. USA (Ret.) "Tip" One Year in the Life of a Dog follows the story of Friend, a dog that can hear the thoughts of humans and respond telepathically. There are humans who are gifted with understanding the telepathy in animals and a university student who interviews Friend is blessed with such a gift. The book follows their interactions and various events that occur within their world. Intrigue, deception, kidnapping, and prejudice are woven seamlessly with love, understanding, sympathy, and acceptance. Barney and Jeff, Friend's owners, are a homosexual, bi-racial couple. Seeing their lives from Friend's point of view speaks on many levels to how ridiculous and outdated prejudice is. Barney and Jeff are just as loving and fulfilled as any other happy couple. Many of the characters with whom Friend interacts are not open to the couple's way of life, but quickly realize their mistake when they see how lovely Barney and Jeff truly are. There are harrowing situations that breed a deeper understanding of the differences between people; this book is truly a tool to teach readers to love all, despite the different ways the characters live their lives. #1 NEW YORK TIMES BESTSELLER • NOW A NETFLIX ORIGINAL SERIES

From the Pulitzer Prize-winning author of The Looming Tower, and the pandemic novel The End of October: an unprecedented, momentous account of Covid-19—its origins, its wide-ranging repercussions, and the ongoing global fight to contain it "A book of panoramic breadth . . . managing to surprise us about even those episodes we . . . thought we knew well . . . [With] lively exchanges about spike proteins and nonpharmaceutical interventions and disease waves, Wright's storytelling dexterity makes all this come alive." —The New York Times Book Review From the fateful first moments of the outbreak in China to the storming of the U.S. Capitol to the extraordinary vaccine rollout, Lawrence Wright's The Plague Year tells the story of Covid-19 in authoritative, galvanizing detail and with the full drama of events on both a global and intimate scale, illuminating the medical, economic, political, and social ramifications of the pandemic. Wright takes us inside the CDC, where a first round of faulty test kits lost America precious time . . . inside the halls of the White House, where Deputy National Security Adviser Matthew Pottinger's early alarm about the virus was met with confounding and drastically costly skepticism . . . into a Covid ward in a Charlottesville hospital, with an idealistic young woman doctor from the town of Little Africa, South Carolina . . . into the precincts of prediction specialists at Goldman Sachs . . . into Broadway's darkened theaters and Austin's struggling music venues . . . inside the human body, diving deep into the science of how the virus and vaccines function—with an eye-opening detour into the history of vaccination and of the modern anti-vaccination

movement. And in this full accounting, Wright makes clear that the medical professionals around the country who've risked their lives to fight the virus reveal and embody an America in all its vulnerability, courage, and potential. In turns steely-eyed, sympathetic, infuriated, unexpectedly comical, and always precise, Lawrence Wright is a formidable guide, slicing through the dense fog of misinformation to give us a 360-degree portrait of the catastrophe we thought we knew. Despite its importance to the life of the nation and all its citizens, the Supreme Court remains a mystery to most Americans, its workings widely felt but rarely seen firsthand. In this book, journalists who cover the Court—acting as the eyes and ears of not just the American people, but the Constitution itself—give us a rare close look into its proceedings, the people behind them, and the complex, often fascinating ways in which justice is ultimately served. Their narratives form an intimate account of a year in the life of the Supreme Court. The cases heard by the Supreme Court are, first and foremost, disputes involving real people with actual stories. The accidents and twists of circumstance that have brought these people to the last resort of litigation can make for compelling drama. The contributors to this volume bring these dramatic stories to life, using them as a backdrop for the larger issues of law and social policy that constitute the Court's business: abortion, separation of church and state, freedom of speech, the right of privacy, crime, violence,

discrimination, and the death penalty. In the course of these narratives, the authors describe the personalities and jurisprudential leanings of the various Justices, explaining how the interplay of these characters and theories about the Constitution interact to influence the Court's decisions. Highly readable and richly informative, this book offers an unusually clear and comprehensive portrait of one of the most influential institutions in modern American life. Charming black-and-white illustrations animate the scenes and add a period flare, including a photo album-like assemblage of the characters' portraits at the book's start."--Publishers weekly The Year of Less In her late twenties, Cait Flanders found herself stuck in the consumerism cycle that grips so many of us: earn more, buy more, want more, rinse, repeat. Even after she worked her way out of nearly \$30,000 of consumer debt, her old habits took hold again. When she realized

that nothing she was doing or buying was making her happy—only keeping her from meeting her goals—she decided to set herself a challenge: she would not shop for an entire year. The Year of Less documents Cait's life for twelve months during which she bought only consumables: groceries, toiletries, gas for her car. Along the way, she challenged herself to consume less of many other things besides shopping. She decluttered her apartment and got rid of 70 percent of her belongings; learned how to fix things rather than throw them away; researched the zero waste movement; and completed a television ban. At every stage, she learned that the less she consumed, the more fulfilled she felt. The challenge became a lifeline when, in the course of the year, Cait found herself in situations that turned her life upside down. In the face of hardship, she realized why she had always turned to shopping, alcohol, and food—and what it had cost her. Unable to reach for any of her usual vices, she changed habits she'd spent years perfecting and discovered what truly mattered to her. Blending Cait's compelling story with inspiring insight and practical guidance, The Year of Less will leave you questioning what you're holding on to in your own life—and, quite possibly, lead you to find your own path of less. Halloween, Valentine's Day, Christmas, Thanksgiving, New Year's Day - these are but a handful of modern holidays descended from the red-letter days, seasonal celebrations we have invented and reinvented over more than five millennia to meet our changing human needs. When we explore their origins, the holidays begin to reflect not only who we are but also why, through oppressed by time and thwarted by the forces of nature, we never seem to lose the will to control the future. From National Geographic's 2014 Adventurers of the Year, a beautifully illustrated account of a year in the Boundary Waters Canoe Area Wilderness This provocative in-depth book focuses on the experiences of the infantry soldier in Vietnam. Named a Best Book of the Year by The Washington Post, Time, NPR, Amazon, Vice, Bustle, The New York Times, The Guardian, Kirkus Reviews, Entertainment Weekly, The AV Club, & Audible A New York Times Bestseller "One of the most compelling protagonists modern fiction has offered in years: a loopy, quietly furious pillhead whose Ambien ramblings and Xanaxed b*tcherries somehow wend their way through sad and funny and strange toward something genuinely profound." – Entertainment Weekly "Darkly hilarious . . . [Moshfegh's] the kind of provocateur who makes you laugh out loud while drawing blood." –Vogue From one of our boldest, most celebrated new literary voices, a novel about a young woman's efforts to duck the ills of the world by embarking on an extended hibernation with the help of one of the worst psychiatrists in the annals of literature and the battery of medicines she prescribes. Our narrator should be happy, shouldn't she? She's young, thin, pretty, a recent Columbia graduate, works an easy job at a hip art gallery, lives in an apartment on the Upper East Side of Manhattan paid for, like the rest of her needs, by her inheritance. But there is a dark and vacuous hole in her heart, and it isn't just the loss of her parents, or the way her Wall Street boyfriend treats her, or her sadomasochistic relationship with her best friend, Reva. It's the year 2000 in a city aglitter with wealth and possibility; what could be so terribly wrong? *My Year of Rest and Relaxation* is a powerful answer to that question. Through the story of a year spent under the influence of a truly mad combination of drugs designed to heal our heroine from her alienation from this world, Moshfegh shows

us how reasonable, even necessary, alienation can be. Both tender and blackly funny, merciless and compassionate, it is a showcase for the gifts of one of our major writers working at the height of her powers.
