A collection of thirty-one of playwright and poet William Shakespeare's most famous verses, sonnets and speeches. An entertainment expert offers a broad understanding of religion in a postsecular age and explores the factors that have contributed to fashioning religious life in the twenty-first century. The bestselling author of *Hold Me Tight* presents a revolutionary new understanding of why and how we love, based on cutting-edge research. Every day, we hear of relationships failing and questions of whether humans are meant to be monogamous. *Love Sense* presents new scientific evidence that tells us that humans are meant to mate for life. Dr. Johnson explains that romantic love is an attachment bond, just like that between mother and child, and shows us how to develop our "love sense" -- our ability to develop long-lasting relationships. Love is not the least bit illogical or random, but actually an ordered and wise recipe for survival. *Love Sense* covers the three stages of a relationship and how to best weather them; the intelligence of emotions and the logic of love; the physical and psychological benefits of secure love; and much more. Based on groundbreaking research, *Love Sense* will change the way we think about love. Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's *Car Talk* declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom. knows Alfa Romeo like the people at Sports Car Market, especially Keith Martin, who started the magazine as Alfa Romeo Market Letter almost 20 years ago. This book brings together the magazine's best articles on Alfas over the years giving detailed coverage of every car from the four-door 164s of the 90s to the Spiders of the 50s and 60s to the earliest pre-war 6C and 8C classics; from Giulias, Giuliettas, Duetto, Sprints, Zagatos, and more. Here aficionados and curious amateurs alike will find a full slate of insider information (why, for instance, is one GTV a good deal at \$30,000, and another a horrible buy at \$10,000?), in-person reviews of Alfas that have actually sold at auction, and exactly what the SCM experts think of the prices they brought. Whether you're thinking of buying your first Alfa or your tenth, you'll find information inside Keith Martin on Collecting Alfa Romeo that you won't get anywhere else and that will help you make the right decision, the very first time. The reemergence of French national forces in the war against the Axis Powers, and the role of large-scale American aid. Shakespeare's Gardens is a highly illustrated, informative book about the gardens that William Shakespeare knew as a boy and tended as a man, published to coincide with the 400th anniversary of Shakespeare's death in April 2016. This anniversary will be the focus of literary celebration of the man's life and work throughout the English speaking world and beyond. The book will focus on the gardens that Shakespeare knew, including the five gardens in Stratford upon Avon in which he gardened and explored. From his birthplace in Henley Street, to his childhood playground at Mary Arden's Farm, to his courting days at Anne Hathaway's Cottage and his final home at New Place - where he created a garden to reflect his fame and wealth. Cared for by the Shakespeare Birthplace Trust, these gardens are continually evolving to reflect our ongoing knowledge of his life. The book will also explore the plants that Shakespeare knew and wrote about in 17th century England: their use in his work and the meanings that his audiences would have picked up on - including mulberries, roses, daffodils, pansies, herbs and a host of other flowers. More than four centuries after the playwright lived, whenever we think of thyme, violets or roses, we more often than not still remember a quote from the 39 plays and 154 sonnets written by him. Now available for the first time alone as ebook, discover this thrilling novella from New York Times bestselling author Sharon Sala Torn apart years ago by a family feud and a deadly accident, high school sweethearts Haley and Mack reunite when Haley returns to town. But someone doesn't want them together and will do anything to keep them apart. Anything... Originally published in 2010 Jade is so used to being with and agreeing with Vicky, her larger-than-life best friend, that when a tragic accident occurs, she can hardly believe that Vicky's gone. But Vicky is a spunky girl who's not going to let a small thing like death stop her from living life to the fullest. Whether Jade is in school, running, or tentatively trying to make new friends, Vicky makes her presence felt, and it's not always a good thing. Holds special interest for amusement park buffs; those who lived or vacationed in southern New England before 1987. In its 93-year lifespan, this amusement park in North Dartmouth, Massachusetts was a vibrant meeting place for generations of southern New Englanders, who flocked from Boston, Cape Cod, Providence, and beyond. From the clambake pavilion, to the roller-skating rink, to the great ballroom, it was a magical part of many lives. Hundreds of photographs capture that magic and evoke memories of a special place and time. Jeremy Clarkson gets under the bonnet in Clarkson on Cars; a collection of his motoring journalism. Jeremy Clarkson has been driving cars, writing about them and occasionally voicing his opinions on the BBC's Top Gear for twenty years. No one in the business is taller. In this collection of classic Clarkson, stretching back to the mid-1980s, he's pulled together the car columns and stories with which he made his name. As coal mines closed and house prices exploded to a soundtrack of men in make-up playing synthesizers, Jeremy was already waxing lyrical on topics as useful and diverse as:

- The perils of bicycle ownership
- Why Australians - not Brits - need bull bars
- Why soon only geriatrics will be driving BMWs
- The difficulty of deciding on the best car for your wedding
- Why Jesus's dad would have owned a Nissan Bluebird
- And why it is that bus lanes cause traffic jams

Irreverent, damn funny and offensive to almost everyone, this is writing with its foot to the floor, the brake lines cut and the speed limit smashed to smithereens. Sit back and enjoy the ride. Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you

in stitches' Time Out Number-one bestseller Jeremy Clarkson writes on cars, current affairs and anything else that annoys him in his sharp and funny collections. Born To Be Riled, Clarkson On Cars, Don't Stop Me Now, Driven To Distraction, Round the Bend, Motorworld and I Know You Got Soul are also available as Penguin paperbacks; the Penguin App iClarkson: The Book of Cars can be downloaded on the App Store. Jeremy Clarkson because his writing career on the Rotherham Advertiser. Since then he has written for the Sun and the Sunday Times. Today he is the tallest person working in British television, and is the presenter of the hugely popular Top Gear. Ambitious but Rubbish reveals the off-camera secrets behind some of Top Gear's most memorable creations. From the challenge of turning a Reliant Robin into a rocket and the genesis of the Hammerhead-i Eagle Thrust electric car to the complexities of building a caravan airship and the inspiration for destruction-testing a Toyota Hilux, this book is packed with the previously untold stories behind dozens of classic TV moments. Top Gear has never shied away from trying to answer questions no one has even thought to ask. Questions like 'Can you make a convertible people carrier?', 'Can you cross the Channel in a pick-up?' and 'Can you turn a combine harvester into a snow plough?'. Ambitious but Rubbish reveals how those insane ideas came about with remarkable tales of ingenious invention and idiotic engineering. This book is essential reading for any Top Gear fan and a terrific insight into the creation of the world's biggest car show. It's also a terrifying window into the minds of Jeremy Clarkson, Richard Hammond and James May. Don't say you weren't warned about that last one. Relates the life of a top Soviet spy, who seduced women to obtain diplomatic pouches, risked his life to steal military secrets and summoned physical courage to cross the Sahara Desert and the jungles of the Congo, only to be tortured by the Stalin regime, forced to falsely confess to selling out and sentenced to 20 years of hard labor in the Gulag. Strap yourself in for a light-hearted and passionate celebration of 30 years of driving - the best and worst cars, the biggest lies, the most glorious failures, the cars that got away, and what it feels like to go full throttle for the first time through the kink into Caltex Chase. This book is about the passion of life in the fast lane. The ultimate success or failure of a business, in modern society, depends on a variety of factors across all levels of the organization. By utilizing dynamic technology and management techniques, businesses can more efficiently reach their goals and become successful in the growing market. Management Strategies and Technology Fluidity in the Asian Business Sector is a critical scholarly resource that examines the collaboration in business, management, and technology in Asia. Featuring coverage on a broad range of topics such as business ethics, entrepreneurship, and international trade, this book is geared towards academicians, students, and managers seeking current research on business in Southeast Asia. With few exceptions-such as corn and pumpkins-everything edible that's grown in a traditional garden can be raised in a container. And with only one exception-watering-container gardening is a whole lot easier. Beginning with the down-to-earth basics of soil, sun and water, fertilizer, seeds and propagation, The Bountiful Container is an extraordinarily complete, plant-by-plant guide. Written by two seasoned container gardeners and writers, The Bountiful Container covers Vegetables-not just tomatoes (17 varieties) and peppers (19 varieties), buttharicots verts, fava beans, Thumbelina carrots, Chioggia beets, and sugarsnap peas. Herbs, from basil to thyme, and including bay leaves, fennel, and saffron crocus. Edible Flowers, such as begonias, calendula, pansies, violets, and roses. And perhaps most surprising, Fruits, including apples, peaches, Meyer lemons, blueberries, currants, and figs-yes, even in the colder parts of the country. (Another benefit of container gardening: You can bring the less hardy perennials in over the winter.) There are theme gardens (an Italian cook's garden, a Four Seasons garden), lists of sources, and dozens of sidebars on everything from how to be a human honeybee to seeds that are All America Selections. Representing the largest expansion between editions, this updated volume of Ottemiller's Index to Plays in Collections is the standard location tool for full-length plays published in collections and anthologies in England and the United States throughout the 20th century and beyond. This new volume lists more than 3,500 new plays and 2,000 new authors, as well as birth and/or death information for hundreds of authors. Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition. Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more. The latest theoretical and empirical evidence on short selling in the United States and throughout the world To get the most success out of what the finance community regards as a risky business, short sellers need high-level information. *The Theory and Practice of Short Selling* offers managers and investors the information they need to maximize and enhance their short selling capabilities for bigger profits. Frank Fabozzi collects a group of market experts who share their knowledge on everything from the basics to the complex in the world of short sales, including mechanics of short selling, the empirical evidence on short-selling, the implications or restrictions on short selling for investment strategies, short-selling strategies pursued by institutional investors, and identifying short-selling candidates. Frank J. Fabozzi, PhD, CFA (New Hope, PA), is the Frederick Frank Adjunct Professor of Finance at Yale University's School of Management and Editor of the *Journal of Portfolio Management*. He is the author or editor of over 100 books on finance and investing. Examines the political aspects of the integration of the European automobile industry Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis
