[Reference Guide to Christian Missionary Societies in China: From the Sixteenth to the Twentieth Century](#) Jun 30 2021 This comprehensive guide will facilitate scholarly research concerning the history of Christianity in China as well as the wider Sino-Western cultural encounter. It will assist scholars in their search for material on the anthropological, educational, medical, scientific, social, political, and religious dimensions of the missionary presence in China prior to 1950. The guide contains nearly five hundred entries identifying both Roman Catholic and Protestant missionary sending agencies and related religious congregations. Each entry includes the organization's name in English, followed by its Chinese name, country of origin, and denominational affiliation. Special attention has been paid to identifying the many small, lesser-known groups that arrived in China during the early decades of the twentieth century. In addition, a special category of the as yet little-studied indigenous communities of Chinese women has also been included. Multiple indexes enhance the guide's accessibility.

**A User's Guide to Vacuum Technology** May 10 2022 In the decade and a half since the publication of the Second Edition of A User's Guide to Vacuum Technology there have been many important advances in the field, including spinning rotor gauges, dry mechanical pumps, magnetically levitated turbo pumps, and ultraclean system designs. Designed to bridge the gap in both knowledge and training between designers and end users of vacuum equipment, the Third Edition offers a practical perspective on today's vacuum technology. With a focus on the operation, understanding, and selection of equipment for industrial processes used in semiconductor, optics, packaging, and related coating technologies, A User's Guide to Vacuum Technology, Third Edition provides a detailed treatment of this important field. While emphasizing the fundamentals and touching on significant topics not adequately covered elsewhere, the text avoids topics not relevant to the typical user.

**Letter-writing Manuals and Instruction from Antiquity to the Present** Mar 08 2022 Once nearly as ubiquitous as dictionaries and cookbooks are today, letter-writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also, in effect, on personal conduct. Poster and Mitchell contend that the study of letter-writing theory, which bridges rhetorical theory and grammatical studies, represents an emerging discipline in need of definition. In this volume, they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials - from Isocrates to email - that form the basis for its study.

**The Key Code and Advanced Handbook for the Governance and Supervision of Banks in Australia** Jan 14 2020 This Key Code and Handbook examines the corporate governance and accountability of Major Banks, their directors and executives which were the central focus of bank, Supervisor, Regulator and governmental activity and public scrutiny in 2018 and 2019. This book explores this responsibility focus by providing evidence from the Global Financial Crisis and beyond with both APRA and ASIC investigating illegal conduct, misconduct and conduct which was below the level of community expectations. This book discusses how the Royal Commission into misconduct in the banking and financial services industry has already given rise to a detailed Final Report whose recommendations are still being put into effect. Further, this book uses evidence provided by the large number of Prudential Standards issued by APRA and investigations into the conduct of Major Banks by Regulators. This book explores governance variables - over 1,700 in number and grouped into 159 'key groupings' or separate categories - which are all indexed to 28 governmental, regulatory and supervisory reports and documents to create a governance code and commentary specifically tailored to Australian banks. Each governance variable is modelled on the Stage 1 Relational Approach contained in Enhancing Firm Sustainability Through Governance. Given the huge interest in the governance of banks, Parts 1 and 2 - explaining the Relational Approach - of Stage 1 were recently published in November 2018 and June 2019 in the Australian Journal of Corporate Law. This book is the largest reference book and handbook in publication worldwide containing the structures, mechanisms, processes and protocols - the checks and balances we call 'governance variables' - that deeply addresses and explains banking accountability and regulation in Australia.

[A User's Guide to Campaign Finance Reform](#) Feb 19 2023 Is campaign finance reform dead or alive? Can Congress really fix the problems that American voters perceive in their electoral system? This book assumes that voters are the end users of campaign finance reform, and it questions whether average citizens really know what they are asking for or what they may get when they demand change. In this book, ten prominent political scientists and commentators challenge the conventional wisdom about the role of money in campaigns and elections. They look at the level of campaign spending in recent times, the judicial perspective on spending as a First Amendment right, the current diversity of donors, the media spin on the subject, and the act of contributing as a form of political participation. The inimitable Norm Ornstein wraps it all up with a model reform proposal that is at once more moderate than McCain-Feingold and yet radical in its own way. Published under the auspices of Berkeley Public Policy Press."
