Psychology (High School) Aug 28 2020 More than any other psychology textbook, Don and Sandra Hockenbury's Psychology relates the science of psychology to the lives of the wide range of students taking the introductory psychology course. Now Psychology returns in a remarkable new edition that shows just how well-attuned the Hockenburys are to the needs of today's students and instructors. Psychology began with a basic idea: combine scientific authority with a narrative that engages students and relates to their lives. From decades of experience teaching, the Hockenburys created a book filled with cutting-edge science and real-life stories that draw students of all kinds into the course.

Discovering Psychology (High School) Dec 20 2019 Check out a preview. More than any other introductory psychology textbook, the Hockenburys' brief book is

the one in which students see themselves - and the world they live in. The new edition builds on that distinction, presenting the discipline with a unique understanding of today's students in all their diversity, emphasizing the field's immediate impact on their lives. Without sacrificing science, Don and Sandy Hockenbury draw on personal experiences and anecdotes to illustrate essential concepts and important research directions.

Discovering Psychology Mar 03 2021 This briefer, streamlined version of Don and Sandra Hockenbury's acclaimed text, Psychology, Second Edition, warmly invites students to explore the science that speaks most directly to their everyday lives. Using a narrative rich with engaging anecdotes and real-life stories--often drawn from the authors' own lives and experiences--Discovering Psychology helps to clarify abstract concepts and psychological principles. With its smart pedagogy, attractive design and state-of-the-classroom media and supplements package, there is no text better equipped for introducing students to the science that speaks most directly to their everyday lives.

Loose-leaf Version for Psychology Apr 23 2020 David Myers' new partnership with coauthor C. Nathan DeWall matches two dedicated educators and scholars, each

passionate about teaching psychological science through writing and interactive media. With this new edition of the #1 bestselling Psychology, Myers and DeWall take full advantage of what an integrated text/media learning combination can do. New features move students from reading the chapter to actively learning online: How Would You Know puts students in the role of scientific researcher and includes tutorials on key research design principles; Assess Your Strengths self-tests help students learn a little more about themselves, and include tips about nurturing key strengths. These and other innovations rest on the same foundations that have always distinguished a new David Myers edition—exhaustive updating (hundreds of new citations), captivating writing, and the merging of rigorous science with a broad human perspective that engages both the mind and heart.
