Torro is the newest member of the Alakota pack of dire wolves and sole heir to their leader, Derinie. Born into a world of turmoil and without a mother he must learn the ways of the pack with its order and rituals to survive the

harsh climate of the prehistoric Ice Age. With the pack starving for prey and despite his inexperience at hunting, he sets off with his best friend Elsie in search of the caribou. But will his spunky personality and steadfast determination be enough for him to survive threats from saber toothed tigers, mammoths, and bears? While traversing the frozen tundra Torro must also manage hostile encounters with rival wolf packs plotting for control of the Alakota territory while his father's leadership is challenged from within. Only Torro knows a secret that threatens the lives of every pack member. How can this brave young wolf protect himself and help the pack to survive through the harshest of winters? Trail of the Caribou chronicles Torro's treacherous journey of growth and discovery in a world of peril and promise. "This imagined world of wolves has all the complexity of human relationships in a time before human interference; complete with Native American-inspired folklore and rituals in a rapid-paced story of courage and survival. Torro forges friendships, navigates danger, and connect with the spirits of his ancestors to thrive in the hostile wilderness -a real thrill ride! If you loved the Warrior series or The Guardians of Ga'Hoole, this is the book for you." Wendy Beeman, Educator The sequel to "Torro: The Storm that brings Peace." Will you build a home that survives the Storms and brings Peace to you? Toys are fun—but they are also serious business, as David Veart makes clear in this remarkable story of New Zealanders and their toys from Maori voyagers to 21st-century gamers. Deploying the tools of archaeology and oral history, Veart digs through a few centuries of pocket knives and plasticine to take us deep into the childhoods of Aotearoa. His story explores how people made their fun on the far side of the ocean—the Maori and Pakeha learned knucklebones from each other; young Aucklanders established the largest Meccano club in the world; and Fun Ho!, Torro, Lincoln International, and Luvme helped to build a successful local toy industry under the shade of import protection. Hello Girls & Boys! covers the crazes and collecting, playtimes and preoccupations of big and little New Zealand kids for generations. With its memories of knucklebones and double happys, golliwogs and tin canoes, marbles and Meccano, Tonka trucks and Buzzy Bees, this is a seriously fun New Zealand toy story. NOTES FROM CAPTAIN BRONET'S LOG: It looked like a lizard, or a snake with legs. It had a large flattish head, three eyes set in triangular formation, and a round food-intake in the centre of the "face." There was no chin. The head perched high on a mottled, leathery neck. The skin on its back was ribbed and corrugated. This creature was the first living thing we encountered on the sinister planet... Unfortunately, it's not. Vladimir Weaver's new trilogy the 13+1 It is unsure if our story takes place in the distant future or remote past. The only thing certain is that 13+1 takes us to planet Mynodis. After numerous cataclysms, people start a seemingly calm period, where everyone's work is necessary, and everybody can live a good life in relative security and recognition. But what lies under the surface? If you could live a life where you are never sick, hardly age and have the chance to live forever, what would you do for it? Would you sacrifice your whole life in return? You can get into 13 classes, where the gap between the standards of living in the lower ones and the higher ones is inconceivable for average people. Ree Vox was born into the class of the poorest. Once in life, everybody can choose between good and bad, rich and poor life. After that, there is no way to change classes. Ree decided to live a happy but humble life with his love, but nothing happens as planned. But there might be something that is worse than death! Is immortality the most one can wish for? Excitement, adventure, love, fight, and everything you can imagine. Sit down and brace yourself, it begins!

****** " It's an understatement when I say I was astounded, when my friend Vladimir, whom I have known*

for not less than 15 years, announced that he had finished his science-fiction novel, and would be happy to send it to me to read. And he did so without any pomposity, with his natural phlegm. Only talented people are capable of this: they are not the slightest surprised by their extraordinary achievements. Of course, writing a book is only a considerable achievement, if it has a value, or at least it entertains. Ree Vox's adventure in a chaotic world unknown to today's man is exciting, moving, and captivating at the same time. The author's creativity is mixed with deep understanding of the science-fiction world, thanks to which he makes the story plausible, maintains the reader's attention incessantly, and at occasions, he stretches the reader's nerves to the breaking point. Due to our friendship, it is hard to assess the book objectively, but I am convinced that I can heartily recommend the book for reading! " István Major Jr. Director of Alba Regia Symphonic Orchestra " As a fan of the fantasy genre, before reading the sci-fi novel 13+1, I felt like a camel when being offered bacon. But after reading it, I simply loved it! It's incredibly exciting. When is the second part finished? I want Amy! :) " A bookworm " It's so good to fly to Mynodis every morning. Yes, I looked forward to being there with Ree Vox, to experience this unique atmosphere, to taste this greatly envisioned world! I love its characters; they've become my acquaintances. I'd proudly fight on Ree's side, shoulder to shoulder, and happily flirt with any of the female characters, because they

are all extraordinary and beautiful... The exciting story lines, the author's unique humour, the well-developed, graphic characters and the whole imaginary geography and technical world! ... I miss it all. When can we fly again? "

Sieradzan Sebastian Jerzy Head of Szivárvány Törzs Public Benefit Organisation " A great book; when reading it, you feel like you are indeed outside the Earth, and when you get out of the spell of reading, you do not at all feel like returning to the Earth. It is an excellent way of entertainment; I recommend it to everybody. "

An incredibly exciting adventure novel mixed with science fiction. Distinguished scholars from both sides of the Atlantic make a major contribution to medieval literary studies in contributions ranging from early epic to Fernando de Rojas. Studies on 'cuaderna via' verse and the poets of the 'cancionero' figure prominently, as do the 'Libro de buen amor' and 'Celestina'; these are complemented by individual essays on texts outside the mainstream, on the language and versification of the period, on the prose writers of the fifteenth century, and on literary activity in Catalonia, Galicia and Portugal. The collection demonstrates the range of interest and approach characteristic of recent Hispanic scholarship, and provides new insights into the medieval mind at work in the Iberian peninsula.
