*It's the Manager Jan 20 2023 Who will lead your workforce during rapid change? Gallup research reveals: It's the manager. While the world's workplace has been going through historic change, the practice of management has been stuck in time for decades. The new workforce — especially younger generations — wants their work to have deep mission and purpose. They don't want old-style command-and-control bosses. They want coaches who inspire them, communicate with them frequently and develop their strengths. Who is the most important person in your organization to lead your teams through these changes? Decades of global Gallup research reveal: It's your managers. They are the ones who make or break your organization's success. Packed with 52 discoveries from*

*Gallup's largest study of the future of work, It's the Manager shows leaders and managers how to adapt their organizations to rapid change — from new workplace demands to the challenges of managing remote employees, the rise of artificial intelligence, gig workers, and attracting and keeping today's best employees. Great managers maximize the potential of every team member and drive your organization's growth. And they give every one of your employees what they want most: a great job and a great life. This is the future of work. It's the Manager includes a unique code to take the CliftonStrengths assessment, which reveals your top five strengths, as well as supplemental content available on Gallup's online workplace platform.*

*New Ideas for Effective School Improvement Nov 18 2022 This book develops an approach to school development which is contextual in that it considers both the larger social structure of which the school is a part and those special features of schools themselves which impact upon the possibilities for their improvement. The book derives from a eight year longitudinal study of school evaluation at St Mary's College, a Catholic girls school in Tasmania. It builds upon, and provides a practical exploration of, such recent developments as Straratt and Caldwell's work on educational vision, the role of evaluation in measuring the extent to which a school's vision has become reality; the effective implementation and management of change, and Coleman and Hoffer's notion of social capital and the importance of school community networks in effective education.*

*A New Deal for an Effective European Research Policy Feb 21 2023 This book argues that a New Deal for research in Europe is needed. This New Deal would involve the mobilisation of policy actors across all levels—regional, national and European—and their commitment to develop a more effective research system based on actions where they have the greatest impact. The book presents, from a viewpoint inside the European Commission, the nuts and bolts of how EU research policy is actually designed. It also provides a comprehensive analysis, on the basis of factual evidence, not only of the positive impacts of European research, but of the various criticisms that have been made of the Framework Programme.*

Montana edition of the National Council on Teacher Quality's 2008 "State Teacher Policy Yearbook". The 2008 "Yearbook" focuses on how state policies impact the retention of effective new teachers. This policy evaluation is broken down into three areas that encompass 15 goals. Broadly, these goals examine the impact of state policy on 1) identifying effective teachers, 2) retaining those deemed effective and 3) exiting those deemed ineffective. While Montana is making progress toward meeting a few goals, it lags behind other states in most other goals. The state completely missed 11 goals, met a small portion of two, and partially met two. Montana is taking steps in the right direction in giving local school districts full authority for pay scales. The state has significant work to do in most other areas, including requiring instructional effectiveness in teacher evaluations, making tenure decisions meaningful and requiring a mentoring program for new teachers. Montana's progress toward meeting these goals is summarized. The body of the report provides a more detailed breakdown of the state's strengths and weaknesses in each area. Montana has an overall performance of F for 2008. Goals for each area are appended. (Contains 57 figures.) [Additional support for the 2008 "State Teacher Policy Yearbook" was provided by the Teaching Commission. For the national summary, see ED514690.]

*Grace-Based Counseling* Jul 02 2021 You speak God's truth when you counsel. But do you also communicate His grace? The Christian counselor or pastor plays an important role in helping people process the trauma they've experienced. Too often, a client leaves the counselor's office with feelings of guilt and shame. They feel the heavy burden of what they did wrong. But somehow, they've missed the grace of God that makes things right again. A counseling model that stays true to a biblical worldview will overflow with grace . . . not cheap grace, but real grace that acknowledges sin while offering a hopeful path to redemption and healing. In *Grace-Based*

*Counseling, professional counselors Richard Fowler and Natalie Ford offer a model that blends the truths of Scripture, the science of psychology, and the everlasting hope of the gospel. In this book you will find: New, grace-based counseling model Detailed application of the model, with case studies Practical toolbox with surveys, assessments, and counseling helps A Christian counseling model can't just be about admonishment. That approach only leads to shame and human efforts that are doomed to fail. But when the gospel is brought to bear in the counseling relationship, real life change is possible. Then the counselor becomes an instrument of divine grace in the hands of a faithful God.*

*Designing Effective Distance and Blended Learning Environments in K-12 May 12 2022 It has quickly become apparent in the past year that online learning is not only an asset, but it is critical to the continued education of youth during times of crisis. However, districts and schools across the nation are in need of guidance and practical, research-backed approaches to distance and hybrid learning. The current COVID-19 crisis has demonstrated that effective learning in K-12 is possible, but many districts struggled and continue to struggle in achieving that reality. There is also the growing consensus that even if things "return to normal," distance and blended learning strategies should continue to be employed in many ways across the K-12 environment. Designing Effective Distance and Blended Learning Environments in K-12 provides key insights into the ways that school districts and educators from across the world have effectively designed and implemented distance and blended learning approaches to enable and enhance student learning. The diverse collection of authors from various demographics and roles in school systems will benefit readers across a wide spectrum of school community stakeholders. There will also be an emphasis on how research and theory is put into practice, along with an honest discussion of what strategies and actions were successful as well as those that were less so. This book is essential for professionals and researchers working in the field of K-12 education, particularly superintendents, curriculum developers, professional learning designers, school principals, instructional technology specialists, and teachers, as well as administrators, researchers, academicians, and students interested in the effective practices being used in blended learning approaches.*

*Brainspotting Nov 13 2019 Brain-based therapy is the fastest-growing area in the field of psychological health because it has proven that it can immediately address issues that talk therapy can take years to heal. Now Dr. David Grand presents the next leap forward in psychological care—combining the strengths of brain-based and talk therapies into a powerful technique he calls Brainspotting. In Brainspotting, Dr. Grand reveals the key insight that allowed him to develop this revolutionary therapeutic tool: that where we look reveals critical information about what's going on in our brain. Join him to learn about: The history of Brainspotting—how it evolved from EMDR practice as a more versatile tool for brain-based therapy Brainspotting in action—case studies and evidence for the effectiveness of the technique An overview of the different aspects of Brainspotting and how to use them Between sessions—how clients can use Brainspotting on their own to reinforce and accelerate healing Why working simultaneously with the right and left brain can lead to expanded creativity and athletic performance How Brainspotting can be used to treat PTSD, anxiety, depression, addiction, physical pain, chronic illness, and much more “Brainspotting lets the therapist and client participate together in the healing process,” explains Dr. Grand. “It allows us to harness the brain's natural ability for self-scanning, so we can activate, locate, and process the sources of trauma and distress in the body.” With Brainspotting, this pioneering researcher introduces an invaluable tool that can support virtually any form of therapeutic practice—and greatly accelerate our ability to heal. “David Grand is one of the most important and effective psychological trauma therapists now practicing, and his development of Brainspotting is a very important leap forward in helping people resolve trauma. Brainspotting is a remarkable, sophisticated, flexible addition to the therapeutic toolkit of any psychotherapist. I know because I use it regularly, and find that, combined with the psychoanalytic approaches I normally practice, the results are astonishingly helpful. Using it, one becomes*

*New Directions in the Effective Enforcement of EU Law and Policy Dec 19 2022 The EU is faced with the perpetual challenge of guaranteeing effective enforcement of its law and policies. This book brings together leading EU scholars in law, politics and regulation, to explore the wealth of new legal and regulatory strategies, practices, and actors that are emerging to complement the classic avenues of central and decentralized enforcement. The contributors evaluate the traditional 'dual vigilance' framework of enforcement before examining network(ed) enforcement from theoretical, empirical and legal perspectives. They assess innovations in key EU policy fields such as the environment, consumer protection, competition, freedom, security and justice, and economic governance. This multi-disciplinary book will be of use to students and academics in law, political science, regulation and public policy. It will also interest policy-makers in EU institutions, national administrations and courts engaged in the implementation and enforcement of EU law and policy.*
