Serpent Rising: The Kundalini Compendium è il risultato finale del mio viaggio di trasformazione Kundalini durato 17 anni, dopo un risveglio completo e prolungato nel 2004 che ha espanso in modo permanente la mia coscienza. Dopo aver sperimentato un completo aggiornamento visivo che mi permette di essere testimone della natura Olografica del mondo ogni giorno, sapevo che quello che mi era successo era unico. Così, per la parte successiva della mia vita, ho deciso di usare il mio dono e di dedicarmi all'apprendimento della scienza del mondo invisibile dell'energia con cui sono intimamente connesso, sviluppando al contempo le giuste competenze linguistiche per comunicare in modo esauriente le mie scoperte. Il Risveglio della Kundalini fa parte della missione della vostra Anima sulla Terra. Il suo scopo ultimo è quello di ottimizzare il vostro campo energetico toroidale (Merkaba) e trasformarvi in un Essere di Luce, consentendovi di viaggiare Interdimensionalmente attraverso la coscienza. Avere le conoscenze adeguate in questo campo può mettervi in grado di prendere il controllo della vostra Evoluzione Spirituale e di compiere il vostro destino in modo da poter continuare il vostro viaggio tra le Stelle nella prossima vita. Ecco perché ho scritto questo libro. Serpent Rising: The Kundalini Compendium contiene tutto quello che c'è da sapere sul tema della Kundalini, compreso l'impatto del processo di Ascensione sull'anatomia umana e il ruolo del sistema nervoso, come sbloccare il pieno potenziale del vostro cervello e risvegliare il potere del vostro cuore, e come utilizzare modalità di Guarigione Spirituale come i Cristalli, i Diapason, l'Aromaterapia e i Tattva, per aumentare le vibrazioni dei vostri Chakra. Un'ampia parte del libro è dedicata alla filosofia e alla pratica dello Yoga (con l'Ayurveda), compreso un elenco di Asana, Pranayama, Mudra, Mantra e meditazioni, con le relative istruzioni per l'uso. Discuto anche in dettaglio il processo di risveglio e trasformazione della Kundalini, compresi i risvegli permanenti e parziali, i Sogni Lucidi, i Siddhis (poteri psichici), le Esperienze Extra-Corporee, il ruolo del cibo, dell'acqua, delle sostanze nutritive e dell'energia sessuale durante l'integrazione e gli eventi di picco nel processo di trasfigurazione generale. Poiché sono stato scienziato e laboratorio in un'unica persona, questo libro contiene tutte le mie conoscenze ed esperienze acquisite nel mio viaggio Spirituale, comprese le meditazioni essenziali che ho sviluppato quando ho incontrato ristagni e blocchi di energia Kundalini. Infine, avendo aiutato negli anni molte persone risvegliate dalla Kundalini che "brancolavano nel buio" in cerca di risposte, ho incluso anche le loro domande e preoccupazioni più comuni. Serpent Rising: The Kundalini Compendium è un'esposizione approfondita e avanzata sulla Kundalini che è una lettura obbligatoria per chiunque sia interessato all'argomento e alla propria crescita Spirituale. Studie over het werk van de Italiaanse architect (1888-1916). Italians found another way to engage with Shakespeare besides opera. In 1923, Italian intellectual Piero Gobetti wrote that his age would be remembered as a curious chapter in the reception history of Shakespeare, when the Bard got entangled with ideas of criminal anthropology. In fact, the uses of Shakespeare by Lombroso's school are now forgotten. In the second half of the nineteenth century, Shakespeare began to be portrayed as a genius who anticipated the findings of the Italian Positivist School, or, alternatively, as an authority who could debunk them. Shakespeare's own psyche and the characters of his plays were explored and pathologised. These studies occasionally percolated into the practices of courthouses, prisons, hospitals, and asylums, and had an impact on the performance of Shakespeare's plays. This volume provides an edition of hitherto uncollected primary sources which document these uses of Shakespeare. Each text has a parallel English translation, and is introduced by a preface providing details about the context and its main discursive stances. The volume also features a critical introduction and explanatory notes. National linguistic ideology has been at the base of most historical processes that – whether they are complete or not – have brought us to the current reality: a world of languages that represent, with greater or lesser exactitude, the diversity – and convergences – of human groups. Various of today's thinkers have predicted the decline or even the end of national ideologies. In the area of language, postmodernism would make the linguistic affiliation of the community individuals irrelevant, de-ideologise language use, and extend plurilingualism and language alternation in association with a new distribution of (physical or functional) spaces of linguistic practice. But is this true everywhere? Are languages now nowhere the core of collective identity? Or are we

witnessing a distinction between languages that, because of their magnitude, status, strategic position, etc., can continue to exercise the function of national languages and languages that have to renounce this function? Has national linguistic ideology really ceased to make sense? What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there? What kinds of languages are desired by politicians, intellectuals and philologists? This book aims to bring some thoughts about these questions. The idea of dedicating a Festschrift to honor Professor Frédéric Manns on the happy occasion of his 70th birthday came to mind in the autumn of 2011 and work on this project had been continuing ever since. Felicitously achieving this goal, the Faculty of Biblical Sciences and Archaeology (Studium Biblicum Franciscanum) and the Franciscan Custody of the Holy Land present this volume to Father Manns with gratitude for his profound scholarship and a lifetime service in the Holy Land. Perusing through Father Manns' writings, it is easy to see a prominent and distinctive place devoted to the Gospel of John. It seemed therefore suitable to focus on this subject in the Festschrift honoring him: the title, *Rediscovering John*, relates to Manns' significant contribution towards the better understanding of the Fourth Gospel. The volume comprises 21 studies authored by renowned scholars from various parts of the world, from different institutions and denominations. While the first half of the studies examines general issues (history of interpretation, textual transmission, intertextuality, theological themes, archaeology), the second half treats literary, narrative and exegetical approaches to particular texts of the Fourth Gospel. We augur that this rich collection will help to stimulate further discussion and reflection on the Gospel of John, as well as constitute an incentive to an already distinguished scholar to continue writing challenging and thought-provoking essays and books. (from the Foreword by the Editor) Die 'alternativen' Fassungen des trojanischen Mythos von Dictys und Dares gehören zu den interessantesten und zugleich rätselhaftesten Werken der Spätantike. Dennoch erhalten sie erst seit Kurzem die ihnen gebührende Aufmerksamkeit, und viele Fragen sind noch immer ungelöst. Dies ist eines der ersten Bücher, das sich auf die Beiträge verschiedener Gelehrter stützt, um die Themengebiete in all ihren verschiedenen Facetten umfassend zu behandeln, angefangen mit der heiklen Frage nach den (wahren oder angeblichen) griechischen Modellen, hin zum kulturellen Kontext, der erwarteten Zielgruppe, Intertextualität, strukturellen Mustern, der Erzähltechnik, Themen, Charakteren, Zielen, bis zu Stil und Sprache. Daraus ergibt sich eine vollständigere und teilweise neue Sichtweise auf die zwei Werke.*****The 'alternative' rewritings of the Trojan myth by Dictys and Dares are among the most interesting and mysterious works of Late Antiquity: yet it is only recently that they have started getting due attention, and many issues about them still remain unsolved. This is one of the first books that relies on contributions by several scholars to comprehensively cover this subject in its various aspects, from the delicate question of (true or supposed) Greek models to cultural context, expected audience, intertextuality, structural patterns, narrative technique, themes, characters, aims, up to style and language. What emerges is a fuller and partly new view of the two works. The law relating to fitness to plead is an increasingly important area of the criminal law. While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account, the doctrine of fitness to plead calls this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial. In light of the emerging focus on capacity-based approaches to decision-making and the international human rights requirement that the law should treat defendants fairly, this volume offers a benchmark for the theory and practice of fitness to plead, providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under-discussed and under-researched. The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing yet, despite the doctrine's long-standing function in criminal procedure, it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions. Particularly troublesome is the question of what is to be done with someone who has been found unfit to stand trial. Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial, whether permanently or for a defined period, and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour. The challenge for law reformers, legislators, and judges, is to create rules that ensure that everyone who can properly be tried is tried, while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it. Members of the Moravian Church who settled in North Carolina were meticulous record keepers, documenting almost every aspect of their day-to-day lives. A significant part of those records is preserved in the form of photographs. Moravian photographers-both professional and amateur-created an enduring legacy by capturing their society and surroundings in faithful detail. Their photographs, which record the towns of Bethabara, Bethania, Salem, Friedberg, Hope, and Friedland, as well as other communities throughout the state, provide a rare glimpse into the historic world of Moravian life in North Carolina. "Renaissance Colour Symbolism brings together texts and translations of the four earliest printed books on the meaning of colours: *Le Blason de toutes armes et éscutz* [The Blazon of All Arms and Escutcheons] (1495) by Jean Courtois, the *Sicily Herald*; *Le Blason des couleurs en armes, livrées et devises* [The Blazon of Colours in Arms, Liveries and Devices] (1527) by Gilles Corrozet; *Libellus de coloribus* [Booklet on Colours] (1528) by Antonio Telesio (Thylesius); and *Del significato de' colori* [On the Signification of Colours] (1535) by Fulvio Pellegrino Morato. Parts of three other early books are included, from *The Accedens of Armory* (1562) by Gerard Legh; *Trattato dell'arte della pittura, scoltura, et architettura* [Treatise on the Arts of Painting, Sculpture, and Architecture] (1584) by Giovanni Paolo Lomazzo; and *A Tracte Containing the Artes of Curious Paintinge, Carvinge and Buildinge* (1598) by Richard Haydocke"--Provided by publisher. With the resumption of archaeological investigations at Satricum (Borgo LeFerriere, Latium), in 1977, a broad array of themes, methodologies and analytical approaches have been pursued. A common thread is technology, which encompasses all social, economic and cultural aspects of human agency. Artefacts, built structures and even landscapes shaped by people prompt technical description and analysis while at the same time testifying to technological knowledge and know how in ancient communities. The prolonged research history of Satricum itself, furthermore, nicely epitomizes the development of archaeology as a discipline over almost half a century. The papers in the present volume address technology as a cultural phenomenon embedded in specific worldviews, social practices and human agency. At the same time, they underline the contribution of this subject to understanding technical events and choices in their social and cultural contexts. The contributions touch upon four themes: landscape, building practices, artefacts production, and modern visualisation techniques. Each represents a different angle through which technology might be addressed. The geographical context is broader Central Italy between the Tyrrhenian and Adriatic regions. Chronologically, they cover the Bronze Age to the late Republican period. In all sections, Satricum was chosen to serve as either focus or point of departure.
