Motivational Interviewing in Diabetes Care Dec 13 2019 People with diabetes often struggle to make healthy choices and stay on top of managing their illness. Filling a vital need, this is the first book to focus on the use of motivational interviewing (MI) in diabetes care. The uniquely qualified authors--physician Marc P. Steinberg has devoted much of his career to diabetes care, and renowned clinical psychologist William R. Miller is the codeveloper of MI--present proven counseling techniques that can make any conversation with a patient more efficacious and motivating. Numerous sample dialogues illustrate specific ways to elicit patients' strengths and help them overcome barriers to change in such areas as eating habits, physical activity, medication use, insulin treatment, substance abuse, psychological issues, and more. This book is in the Applications of Motivational Interviewing series, edited by Stephen Rollnick, William R. Miller, and Theresa B. Moyers. Winner (First Place)--American Journal of Nursing Book of the Year Award, Adult Primary Care Category

Modern Selfhood in Translation Apr 16 2020 This book examines the development of Chinese translation practice in relation to the rise of ideas of modern selfhood in China from the 1890s to the 1920s. The key translations produced by late Qing and early Republican Chinese intellectuals over the three decades in question reflect a preoccupation with new personality ideals informed by foreign models and the healthy development of modern individuality, in the face of crises compounded by feelings of cultural inadequacy. The book clarifies how these translated works supplied the meanings for new terms and concepts that signify modern human experience, and sheds light on the ways in which they taught readers to internalize the idea of the modern as personal experience. Through their selection of source texts and their adoption of different translation strategies, the translators chosen as case studies championed a progressive view of the world: one that was open-minded and humanistic. The late Qing construction of modern Chinese identity, instigated under the imperative of national salvation in the aftermath of the First Sino-Japanese War, wielded a far-reaching influence on the New Culture discourse. This book argues that the New Culture translations, being largely explorations of modern self-consciousness, helped to produce an egalitarian cosmopolitan view of modern being. This was a view favoured by the majority of mainland intellectuals in the post-Maoist 1980s and which has since become an important topic in mainland scholarship.

Feminist Critical Discourse Analysis Jun 30 2021 The first collection to bring together well-known scholars writing from feminist perspectives within Critical Discourse Analysis. The theoretical structure of CDA is illustrated with empirical research from a range of locations (from Europe to Asia; the USA to Australasia) and domains (from parliament to the classroom; the media to the workplace).

Chinese Marriage and Social Change Oct 03 2021 This book provides a comparative account of the abolition of concubinage in East Asia, offering a new perspective and revised analysis of the factors leading to – and the debates surrounding – the introduction of a new Marriage Reform Ordinance in Hong Kong in 1971. It uses this law as a platform to examine how the existence of concubinage – long preserved in the name of protecting Chinese traditions and customs — crucially influenced family law reforms, which were in response to a perceived need to create a 'modern' marriage system within Hong Kong's Chinese community after the Second World War. This was, by and large, the result of continued pressure from within Hong Kong and from Britain to bring Hong Kong's marriage system in line with international marriage treaties. It represented one of the last significant intrusions of colonial law into the private sphere of Hong Kong social life, eliminating Chinese customs which had been previously recognised by the colonial legal system's family law. This book contextualizes the Hong Kong situation by examining judicial cases interpreting Chinese customs and the Great Qing Code, offering a comprehensive understanding of the Hong Kong situation in relation to the status of concubines in Republican China and other East Asian jurisdictions. It will be of particular interest to teachers and students of law, as well as researchers in gender studies, post-colonialism, sociology and cultural studies.

Microarchitecture of Network-on-Chip Routers Sep 02 2021 This book provides a unified overview of network-on-chip router micro-architecture, the corresponding design opportunities and challenges, and existing solutions to overcome these challenges. The discussion focuses on the heart of a NoC, the NoC router, and how it interacts with the rest of the system. Coverage includes both basic and advanced design techniques that cover the entire router design space including router organization, flow control, pipelined operation, buffering

architectures, as well as allocators' structure and algorithms. Router micro-architectural options are presented in a step-by-step manner beginning from the basic design principles. Even highly sophisticated design alternatives are categorized and broken down to simpler pieces that can be understood easily and analyzed. This book is an invaluable reference for system, architecture, circuit, and EDA researchers and developers, who are interested in understanding the overall picture of NoC routers' architecture, the associated design challenges, and the available solutions.

Understanding China's School Leadership Feb 19 2023 This open access book outlines key terms of China's school leadership in Chinese political and legal, financial, administrative, and cultural contexts. It reveals and interprets the real meaning of these practical terms based on existing laws, government documents, school policy texts as well as the latest empirical findings from school leaders and teachers' surveys and interviews in China. Providing a holistic picture of China's school leadership through the unique meanings of these terms, the book offers researchers and graduate students insights into school leadership practice and its context in China. Thus, it would likely intensify readers' knowledge base to analyse and interpret the phenomenon and research data regarding China's school leadership.

The Confucian Four Books for Women Nov 23 2020 This volume presents the first English translation of the Confucian classics, Four Books for Women, with extensive commentary by the compiler, Wang Xiang, and introductions and annotations by translator Ann A. Pang-White. Written by women for women's education, the Confucian Four Books for Women spanned the 1st to the 16th centuries, and encompass Ban Zhao's Lessons for Women, Song Ruoxin's and Song Ruozhao's Analects for Women, Empress Renxiaowen's Teachings for the Inner Court, and Madame Liu's (Chaste Widow Wang's) Short Records of Models for Women. A female counterpart to the famous Sishu (Four Books) compiled by Zhu Xi, Wang Xiang's Nü sishu provides an invaluable look at the long-standing history and evolution of Chinese women's writing, education, identity, and philosophical discourse, along with their struggles and triumphs, across the millennia and numerous Chinese dynasties. Pang-White's new translation brings the authors of the Four Books for Women to life as real, living people, and illustrates why they wrote and how their work empowered women.

Labour Markets in Low-Income Countries Jan 18 2023 Labour Markets in Low-Income Countries addresses some of the most important issues affecting labour markets in low-income countries. It builds heavily on the new research evidence that has been provided by the programme on Growth and Labour Markets in Low-Income Countries (GLM|LIC), which was created as a partnership between UK Department for International Development (now part of the Foreign, Commonwealth, and Development Office) and the German IZA- Institute of Labor Economics in 2011. The programme has contributed to the growing interest in understanding labour markets in the poorest countries by producing high-quality research outputs and policy documents, as well as through interactions with various stakeholders and impacts on programs and policies. Across nine chapters dealing with different aspects of labour markets in developing countries, David Lam and Ahmed Elsayed provide lessons about what kinds of labour market programmes and policies can make a difference. Some of these lessons are about the difficulties that many well-intentioned programmes face when they are implemented. Vocational training programmes, for example, one of the most widely implemented labour market interventions, have a disappointing record when subjected to rigorous evaluation. Public Works programmes have also had mixed results when rigorously evaluated. Other lessons are more positive, however. Some of the modifications and additions to traditional programmes that have been tested recently in different projects have had encouraging results. The book provides evidence of what works and what doesn't in areas such as skills training, worker-firm matching, rural labour markets, migration, youth unemployment, and women's empowerment. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations.

Tang Dynasty Tales Aug 01 2021 "This volume supplements Tang Tales, A Guided Reader (Volume 1; 2010) and presents twelve more Tang tales, going beyond the standard corpus of these narratives to include six stories translated into English for the first time. The rich annotation and translator's notes for these twelve tales provide insights into many aspects of Tang material culture and medieval thought, including Buddhism and Daoism. In addition to meticulously annotated translations, the book offers original texts (with some textual notes), and commentaries in the form of translator's notes, thereby joining the first volume of Tang tales as the only collections that introduce students to Tang tales while also challenging specialists interested in the field."--

Eighteen Lectures on Dunhuang Feb 24 2021 In Eighteen Lectures on Dunhuang, Professor Rong Xinjiang provides a reliable, yet accessible, overview of the discovery of the Dunhuang manuscripts, the emergence of the field of Dunhuang studies and its contribution to scholarship both in China and the West.

Genocide and Mass Violence in Asia Aug 21 2020 The series Genocide and Mass Violence in the Age of Extremes wants to provide an interdisciplinary forum for research on mass violence and genocide during the "short" 20th century. It will highlight the role of state and non-state actors, the perspectives of perpetrators, victims, and bystanders, and put violent events of the Age of Extremes in a larger political, social, and most important, cultural context. Anthologies and monographs will provide academic and non-academic readers with a deep insight into and a better understanding for the reasons, the acts, and the consequences of mass violence and genocide from a global perspective. Titles of the series will be published in print and OPEN ACCESS. Advisory Board: Omer Bartov (Brown University) Wolfgang Benz (TU Berlin) Elissa Bemporad (Queens College, CUNY) Nida Kirmani (LUMS, Pakistan) Thomas Kühne (Clark University) Michael Pfeifer (John and Jay College of Criminal Justice, CUNY) Jürgen Zimmerer (University of Hamburg)

Growing Out of the Plan May 18 2020 This is a comprehensive study of China's economic reforms, from their beginnings at the end of 1978 through the completion of many of the initial reform measures during 1993. The features of Chinese reform that differ from the former USSR are highlighted.

The Palgrave Handbook of Bondage and Human Rights in Africa and Asia Nov 11 2019 In the West, human bondage remains synonymous with the Atlantic slave trade. But large slave systems in Africa and Asia predated, co-existed, and overlapped with the Atlantic system—and have persisted in modified forms well into the twenty-first century, posing major threats to political and economic stability within those regions and worldwide. This handbook examines the deep historical roots of unfree labour in Africa and Asia along with its contemporary manifestations. It takes an innovative longue durée perspective in order to link the local and global, the past and present. Contributors trace shifting forms of forced labour in the region since circa 1800, connecting punctual shocks such as environmental crisis, conflict, market instability, and crop failure to human security threats such as impoverishment, violence, migration, kidnapping, and enslavement. Together, these chapters illuminate the historical and contemporary dimensions of bondage in Africa and Asia, with important implications for the fight against modern-day bondage and human trafficking.

Handbooks and Anthologies for Officials in Imperial China Jun 18 2020 "The 1,165 entries of Handbooks and Anthologies for Officials in

Imperial China by Pierre-Étienne Will and collaborators provide a descriptive list of extant manuscript and printed works—mainly from the Song, Ming, and Qing dynasties—created with the aim to instruct officials and other administrators of imperial China about the technical and ethical aspects of government, and to provide tools and guides to help with the relevant procedures. Both generalist and specialized texts are considered. Among the latter, such disciplines as the administration of justice, famine relief, and the military receive particular attention. Each entry includes the publishing history of the work considered (including modern editions), an analysis of contents, and a biographical sketch of the author."--

Chinese New Migrants in Suriname Mar 08 2022 This book covers various aspects of New Chinese Migration in Suriname in the 1990s and early 2000s. It is an ethnography of New Chinese Migrants in the context of South-South migration, but also a first ethnography of Chinese in Suriname, as well as an analysis of Surinamese ethnic discourse and ethno-politics. Starting in the 1990s, renewed immigration from China changed the dynamics of the Surinamese Chinese community, which developed from a Hakka enclave to a culturally and linguistically diverse, modern Chinese migrant group. Local positioning strategies of Chinese had always depended on ethnic entrepreneurship and political participation, but were now complicated by anti-immigrant sentiments.

The American Dream and the Power of Wealth Mar 16 2020 Despite the overwhelming evidence against them, many people still believe they can overcome the economic and racial constraints placed upon them at birth. In the first edition, Heather Beth Johnson explored this belief in the American Dream with over 200 in-depth interviews with black and white families, highlighting the ever-increasing racial wealth gap and the actual inequality in opportunities. This second edition has been updated to make it fully relevant to today's reader, with new data and illustrative examples, including twenty new interviews. Johnson asks not just what parents are thinking about inequality and the American Dream, but to what extent children believe in the American Dream and how they explain, justify, and understand the stratification of American society. This book is an ideal addition to courses on race and inequality.

A Glossary of Words and Phrases in the Oral Performing and Dramatic Literatures of the Jin, Yuan, and Ming Apr 09 2022 For many years, the oral performing and dramatic literatures of China from 1200 to 1600 CE were considered some of the most difficult texts in the Chinese corpus. They included ballad medleys, comic farces, Yuan music dramas, Ming music dramas, and the novel *Shuihu zhuan*. The Japanese scholars who first dedicated themselves to study these works in the mid-twentieth century were considered daring. As late as 1981, no comprehensive dictionary or glossary for this literature existed in any language, Asian or Western. *A Glossary of Words and Phrases* fills this gap for Western readers, allowing even a relative novice who has reasonable command of Chinese to read, translate, and appreciate this great body of literature with an ease undreamed of even two decades ago. The Glossary is organized into approximately 8,000 entries based on the reading notes and glosses found in various dictionaries, thesauruses, glossaries, and editions of works from the period. Main entries are listed alphabetically in the pinyin romanization system. In addition to glosses, entries include symbolic annotations, guides to pronunciation, and text citations. The result is a broadly useful glossary serving the needs of students of this literature as well as scholars researching Jin and Yuan language and its usage.

Chinese Traditional Healing (3 vols) Sep 21 2020 The Berlin collections of handwritten Chinese volumes on health and healing from past centuries provide an unprecedented access to the reality of health care as understood and practiced by professional doctors, lay healers, private households, pharmacists, magicians and itinerant healers.

Body, Society, and Nation Jan 06 2022 "Body, Society, and Nation tells the story of China's unfolding modernity by exploring the changing ideas, practices, and systems related to health and body in late nineteenth- and twentieth-century Shanghai. The pursuit of good health loomed large in Chinese political, social, and economic life. Yet, "good health" had a range of associations beyond individual well-being. It was also an integral part of Chinese nation-building, a goal of charitable activities, a notable outcome of Western medical science, a marker of modern civilization, and a commercial catchphrase. With the advent of Western powers, Chinese notions about personal hygiene and the body gradually expanded. This transformation was complicated by indigenous medical ideas, preexisting institutions and social groups, and local cultures and customs. This study explores the many ways that members of the various strata of Shanghai society experienced and understood multiple meanings of health and body within their everyday lives. Chieko Nakajima traces the institutions they established, the regulations they implemented, and the practices they brought to the city as part of efforts to promote health. In doing so, she explains how local practices and customs fashioned and constrained public health and, in turn, how hygienic modernity helped shape and develop local cultures and influenced people's behavior."

Caring for Your Scooter Jun 11 2022 With fuel costs and parking charges it's no wonder the consumer is looking for less expensive forms of travel. This book is aimed at the rider who wants to do his or her own basic scooter maintenance and servicing without the need for in-depth mechanical knowledge, or a technical manual. It covers areas such as oil, brakes, tyres, transmission, electrics, etc, allowing the owner to address the most regularly serviced items without forking out for additional costs. Illustrated with full colour photographs throughout, and featuring clear, easy-to-follow instructions, this book is a must-have for scooter users.

An Intellectual History of China, Volume Two Nov 16 2022 A history of traditional Chinese knowledge, thought and belief from the seventh through the nineteenth centuries with a new approach that offers a new perspective. It appropriates a wide range of source materials and emphasizes the necessity of understanding ideas and thought in their proper historical contexts. Its analytical narrative focuses on the dialectical interaction between historical background and intellectual thought. While discussing the complex dynamics of interaction among the intellectual thought of elite Chinese scholars, their historical conditions, their canonical texts and the "worlds of general knowledge, thought and belief," it also illuminates the significance of key issues such as the formation of the Chinese world order and its underlying value system, the origins of Chinese cultural identity, foreign influences, and the collapse of the Chinese world order in the 19th century leading toward the revolutionary events of the 20th century.

Understanding Anxiety, Worry and Fear in Childbearing Feb 13 2020 This book informs and enlightens health professionals on how the recognition of fearing women can change their episode of care during childbearing. It gives practical advice on the way women present to services and the challenges that this invokes. This work is the first of its kind aimed at clinicians to deconstruct ideology around childbearing myths and its challenges. The authors review the evidence that exists and how modern maternity systems are responding to fear and shaping healthcare. Whilst some worry and anxiety is expected and indeed considered normal during childbearing, it has been suggested that this has now proliferated to a degree of abnormal for many women. Why is that and how is this panic spread? Media portrayal of birth is suggested as unrealistic material and to show only that which is dramatic and horrific. This has been considered as one factor influencing modern women. Medicalisation, technology and demand upon services is another consequence of providing almost all maternity care in hospitals. Given that the majority of childbearing women are fit and healthy is this another causative factor? By removing women from their homes and families at such a vulnerable time has a serious consequence for how she will experience her greatest leap of faith into motherhood. All of these issues are explored and examined in the book with ideas and practical suggestions of what may be done to change this increasingly common problem.

This book is intended at midwives and clinicians working in maternity settings.

WorldMinds May 30 2021 WorldMinds provides broad exposure to a geography that is engaged with discovery, interpretation, and problem solving. Its 100 succinct chapters demonstrate the theories, methods, and data used by geographers, and address the challenges posed by issues such as globalization, regional and ethnic conflict, environmental hazards, terrorism, poverty, and sustainable development. Through its theoretical and practical applications, we are reminded that the study of Geography informs policy making.

Contemporary Strategy Analysis Mar 28 2021 Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition, he includes an even greater focus on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. This edition also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability.

Coverage is also provided on strategy in not-for-profit organizations. Contemporary Strategy Analysis, Text and Cases 8th Edition combines the text with an updated collection of 20 case studies. It is suitable for both MBA and advanced undergraduate students. Additional teaching resources are also available for instructors, including an instructor's manual, case teaching notes, test bank, teaching slides, case video clips and extra cases. All of these resources can be accessed via the companion website: www.contemporarystrategyanalysis.com

Data Mining Jul 20 2020 This comprehensive textbook on data mining details the unique steps of the knowledge discovery process that prescribes the sequence in which data mining projects should be performed, from problem and data understanding through data preprocessing to deployment of the results. This knowledge discovery approach is what distinguishes Data Mining from other texts in this area. The book provides a suite of exercises and includes links to instructional presentations. Furthermore, it contains appendices of relevant mathematical material.

A History of Chinese Buddhist Faith and Life Jul 12 2022 This book is a study of the formation and the practice of Buddhist canons and an attempt to present as fully as possible the panorama of Chinese Buddhist faith. Advances in Communication and Computational Technology Dec 05 2021 This book presents high-quality peer-reviewed papers from the International Conference on Advanced Communication and Computational Technology (ICACCT) 2019 held at the National Institute of Technology, Kurukshetra, India. The contents are broadly divided into four parts: (i) Advanced Computing, (ii) Communication and Networking, (iii) VLSI and Embedded Systems, and (iv) Optimization Techniques. The major focus is on emerging computing technologies and their applications in the domain of communication and networking. The book will prove useful for engineers and researchers working on physical, data link and transport layers of communication protocols. Also, this will be useful for industry professionals interested in manufacturing of communication devices, modems, routers etc. with enhanced computational and data handling capacities.

Dogen's Extensive Record May 10 2022 Eihei Dogen, the thirteenth-century Zen master who founded the Japanese Soto School of Zen, is renowned as one of the world's most remarkable religious thinkers. As Shakespeare does with English, Dogen utterly transforms the language of Zen, using it in novel and extraordinarily beautiful ways to point to everything important in the religious life. He is known for two major works. The first work, the massive Shobogenzo (Treasury of the True Dharma Eye), represents his early teachings and exists in myriad English translations; the second work, the Eihei Koroku, is a collection of all his later teachings, including short formal discourses to the monks training at his temple, longer informal talks, and koans with his commentaries, as well as short appreciatory verses on various topics. The Shobogenzo has received enormous attention in Western Zen and Western Zen literature, and with the publication of this watershed volume, the Eihei Koroku will surely rise to commensurate stature. Dogen's Extensive Record is the first-ever complete and scholarly translation of this monumental work into English and this edition is the first time it has been available in paperback. This edition contains extensive and detailed research and annotation by scholars, translators and Zen teachers Taigen Dan Leighton and Shohaku Okumura, as well as forewords by the eighteenth-century poet-monk Ryokan and Tenshin Reb Anderson, former abbot of the San Francisco Zen Center - plus introductory essays from Dogen scholar Steven Heine, and the prominent, late American Zen master John Daido Loori.

Proceedings of 3rd International Conference on Advanced Computing, Networking and Informatics Nov 04 2021 Advanced Computing, Networking and Informatics are three distinct and mutually exclusive disciplines of knowledge with no apparent sharing/overlap among them. However, their convergence is observed in many real world applications, including cyber-security, internet banking, healthcare, sensor networks, cognitive radio, pervasive computing amidst many others. This two volume proceedings explore the combined use of Advanced Computing and Informatics in the next generation wireless networks and security, signal and image processing, ontology and human-computer interfaces (HCI). The two volumes together include 132 scholarly articles, which have been accepted for presentation from over 550 submissions in the Third International Conference on Advanced Computing, Networking and Informatics, 2015, held in Bhubaneswar, India during June 23-25, 2015.

Abrupt Climate Change Jan 14 2020 The climate record for the past 100,000 years clearly indicates that the climate system has undergone periodic--and often extreme--shifts, sometimes in as little as a decade or less. The causes of abrupt climate changes have not been clearly established, but the triggering of events is likely to be the result of multiple natural processes. Abrupt climate changes of the magnitude seen in the past would have far-reaching implications for human society and ecosystems, including major impacts on energy consumption and water supply demands. Could such a change happen again? Are human activities exacerbating the likelihood of abrupt climate change? What are the potential societal consequences of such a change? Abrupt Climate Change: Inevitable Surprises looks at the current scientific evidence and theoretical understanding to describe what is currently known about abrupt climate change, including patterns and magnitudes, mechanisms, and probability of occurrence. It identifies critical knowledge gaps concerning the potential for future abrupt changes, including those aspects of change most important to society and economies, and outlines a research strategy to close those gaps. Based on the best and most current research available, this book surveys the history of climate change and makes a series of specific recommendations for the future.
