Popular Protest and Ideals of Democracy in Late Renaissance Italy Oct 16 2019 Popular Protest and Ideals of Democracy in Late Renaissance Italy is the first study to analyse popular protest across the Italian peninsula and the Venetian colonies during the early modern period, 1494 to 1559. Drawing on over 100 contemporary chronicles and diaries, the fifty-eight volumes of Marin Sanudo's diplomatic dispatches, mercantile letters, and commentary, and 586 collective supplications scattered through archival sources from towns and villages in the Grand duchy of Milan, Samuel K. Cohn, Jr. places these incidents and their patterns in comparative perspectives, first with the late medieval heyday of popular revolt and then with regions north of the Alps. Cohn finds new developments during the early modern period such as an increase in women rebels, mutinies of soldiers, and new tactics of revolts such as shop closures, peaceful demonstrations of strength, and use of religious processions for discussions of tactics and strategies for obtaining logistic advantage. At the same time, these protests show convergences with the medieval Italian past, with leaders coming almost exclusively from the ranks of nonelites, religious ideology playing a surprisingly minor role, and the majority of revolts centring overwhelming in towns and cities. Finally, this study demonstrates that democracies do not just die under the duress of military

occupation and growing powers of autocratic regimes. Ideals of representation and equality not only persisted; they could emerge in new forms and with greater sophistication.

Etica Medica Sep 26 2020 L'autore, medico, con molteplici esperienze nella ricerca scientifica e nella farmacovigilanza, in Italia e all'Estero, compie un itinerario storiografico impegnativo ed importante che parte da prima di Ippocrate per zigzagare tra Greci, Romani, Bizantini e Barbari, per portarci poi in estremo, medio e vicino Oriente, risalendo dall'apporto caritativo del Medioevo cristiano al coevo contributo di Arabi ed Ebrei, per condurci poi nei secoli della modernità, confrontando ideologie etico-politiche contrapposte e approdando infine alle questioni di vita delle quali noi tutti, uomini e donne d'oggi, abbiamo quotidiana esperienza nella vita piena e residua che ci è riservata. dalla prefazione di Giorgio Cosmacini, Storico del Pensiero Medico e delle Bioscienze, Università Vita-Salute San Raffaele

AliMentAzioneperilBenEssere May 23 2020 Tutti gli studi scientifici dimostrano che una sana alimentazione assicura il buon funzionamento *del *corpo e che la salute si costruisce a tavola (ed anche prima nella scelta degli alimenti); una dieta varia ed equilibrata, caratterizzata dall'assunzione bilanciata di tutti i nutrienti necessari e personalizzata sulla base delle reali esigenze dell'organismo è di primaria importanza. L'obiettivo può essere raggiunto però solo se si possiede un bagaglio di conoscenze idoneo, tale da guidare con piena consapevolezza il proprio operato. Allo scopo è stato attivato un programma [AMAPERBENÈ, acronimo di AliMentAzione per il BenEssere] di informazione ed autoeducazione alla Salute ed ai corretti stili di vita per tentare di raggiungere il vero BenEssere psico-fisico globale; il lettore, scorrendo le pagine di questo volume, acquisisce le nozioni fondamentali venendo nel contempo invitato ad usare la mente e le conoscenze acquisite per governare il proprio agire ed assumere comportamenti e stili di vita consoni. Più che diete particolari, usare molto buonsenso, seguendo la via mediterranea per la Salute, adeguata ai tempi e presa a modello non solo alimentare ma di stile di vita.

Il filo della vita Jan 31 2021 Ispirandosi alla Tradizione filosofica cinese, che si fonda sulla conoscenza sensoriale del Mondo ponendo l'uomo come mediatore fra gli opposti complementari di Terra e di Cielo (Yin e Yang), e le Stagioni come "organi" fondamentali al benessere (tanto fisico che psichico) dello stesso, l'autrice introduce questi elementi come personaggi di una pseudo favola al fine di rendere più facile la comprensione di un testo a contenuto filosofico, che si rivela di complemento a quello della Tradizione classica occidentale. La narrazione si snoda a partire da una "sorta di caos primordiale dove Sole e Luna, Cielo e Terra e le Stagioni stesse si animano, strada facendo, di una vita propria conducendo l'uomo, mediante il metodo della conoscenza empirica del Mondo, alle energie che presiedono alla formazione del suo carattere e al luogo dell'illuminazione." Illuminazione della mente logica che scopre la complementarietà del pensiero del cuore, portandoci a riconsiderare il nostro filo della vita individuale, troppo spesso ripiegato su se stesso.

Jewish Bankers and the Holy See (RLE: Banking & Finance) Apr 02 2021 The Jewish community in Rome is the oldest in Europe, the only one to have existed continuously for over 2,000 years. This detailed study of the Jewish banking community in Italy is therefore of special value and interest.

Poliakov's classic account of the rise and fall of the Jewish bankers is at the same time the story of

medieval finance in general, its decline, and the birth of 'modern' finance. The author traces the economic and theological implication of each stage in the ambiguous relationship that developed between the Jewish money trade and the Holy See. He shows that the protection enjoyed by the Jews from the Holy See had not only theological, but also economic roots. The study ends with an account of the introduction of modern, 'capitalist' techniques and of the consequent inevitable decline of the Jewish money trade.

Textiles and the Medieval Economy Sep 19 2022 Archaeologists and textile historians bring together 16 papers to investigate the production, trade and consumption of textiles in Scandinavia and across parts of northern and Mediterranean Europe throughout the medieval period. Archaeological evidence is used to demonstrate the existence or otherwise of international trade and to examine the physical characteristics of textiles and their distribution in order to understand who was producing, using and trading them and what they were being used for. Historical evidence, mainly textual, is employed to link textile names to places, numbers and prices and thus provide an appreciation of changing economics, patterns of distribution and the organisation of trade. Different types and qualities of cloths are discussed and the social implications of their production and import/export considered against a developing background of urbanism and increasing commercial wealth.

Osteopatia Energetica, oltre il test Aug 18 2022 Uno dei miei antichi Maestri, Jean-Marc Kespy, si raccomandava di "dimenticare il sintomo", questo è stato lo stimolo nella mia pratica clinica e nella mia docenza in ambito sanitario e osteopatico da oltre 35 anni più altri impulsi trasmessimi da altri colleghi e amici come Alain Bernard, Laurie Hartman e Raymond Richard. L'osteopata, come la Medicina Osteopatica espone nei sui principi, deve avere una visione globale non solo fra un distretto e l'altro o fra l'esterno e l'interno ma deve relazionarsi con tutte le dinamiche biologiche, energetiche, sensoriali ed emotive contingenti, in caso contrario il suo operato è superficiale.

Courtesy Lost Sep 07 2021 In *Courtesy Lost*, Kristina M. Olson analyses the literary impact of the social, political, and economic transformations of the fourteenth century through an exploration of Dante's literary and political influence on Boccaccio. The book reveals how Boccaccio rewrote the past through the lens of the *Commedia*, torn between nostalgia for elite families in decline and the need to promote morality and magnanimity within the Florentine Republic. By examining the passages in Boccaccio's *Decameron*, *De casibus*, and *Esposizioni* in which the author rewrites moments in Florentine and Italian history that had also appeared in Dante's *Commedia*, Olson illuminates the ways in which Boccaccio expressed his deep ambivalence towards the political and social changes of his era. She illustrates this through an analysis of Dante's and Boccaccio's treatments of the idea of courtesy, or *cortesia*, in an era when the chivalry of the declining aristocracy was being supplanted by the civility of the rising merchant classes.
