As a financial advisor on Wall Street, Ryan Sterling had seen it all: the unfulfilled millionaires, the disgruntled divorcees, the ego-driven over-spenders. Their money was no longer a beneficial resource, but instead an incredible burden that eventually defined them. But when "them" turned into "him" and he found himself on the verge of a personal collapse, it became clear that building and managing wealth is a lot more complex than formulas or forecasts. Many of us live in constant unrest as we fill voids with possessions and chronically battle the urge to consume. In *You're Making Other People Rich*, Ryan explores how to use mindfulness and intention to restore your relationship with wealth. He shows you not only how to invest, but also how to be aware of consumer exploitation so that you can take accountability for your future and make deliberate strides toward financial independence. Are You Ready to become the CEO of your money? Accumulating at least \$1,000,000 of net worth is just the beginning. For Accredited Investors, keeping the amount of net worth you have amassed today is something completely different. No longer can you solely rely on wall-street and traditional investments. If you have already integrated alternative investments into your portfolio or if you are just starting, understanding the complexities of these types of assets as it relates to your passive cash and tax implications is a key component to preserving and growing your wealth. In the book you will learn how to be the CEO of your money and stop abdicating control of your money to the traditional financial planning industry and Wall Street. Nobody will ever care more about your money than you do and the only way to ensure your financial success and have the freedom to truly enjoy your best life requires you to take back full and complete control of your money. Most of us who have achieved true financial independence and enjoying our best lives financed by passive investments and passive income didn't get there by accident or by ourselves. It started with a very deliberate purpose, supported by other like-minded investors with shared-values and access to the right tools and capital deployment opportunities. In today's chaotic market, you have to re-imagine your purpose and re-imagine how, and with who, you are going to bring along with you to help you get there. Today is the day you take back the full control of your wealth and stop hoping that somebody else is going to do it for you. Let's begin! About The Author Ryan Parson is a calming force in the world of strategic wealth and alternative investments. As a national speaker, Ryan shares the 'code crackers' of how to maintain financial freedom so investors can truly live their best lives on their terms. Through the Mile Marker Club ([milemarkerclub.com](http://milemarkerclub.com)), which he founded, investors gain access to the tools, the know-how and strategies to have full control and be completely confident with their wealth. By serving accredited investors for more than 25 years, Ryan brings unique qualifications and experiences to co-investing in private, off-market alternative investments and integrating the necessary wealth strategies to create passive income today and for generations to come. A clear, personal, step-by-step plan to achieve financial freedom--for yourself and your community Financial planning isn't easy – especially when you're trying to overcome destructive spending habits, accumulating debt, and ever-increasing household budgets. Ryan Mack, Wall Streeter-come-financial advisor, has written *LIVING IN THE VILLAGE* for those who need a clear, accessible and tangible plan for getting personal finances in order once and for all. In a frank, accessible voice, Ryan C. Mack provides simple, easy-to-understand financial advice that you can implement right away. He developed a seven-step plan, featuring critical advice for: - Eliminating debt - Improving credit - Creating an emergency fund - Maximizing the company retirement plan and IRA - Avoiding financial predators - Diversifying your investments - Establishing a financial legacy for future generations Each step of the way, *LIVING IN THE VILLAGE* not only educates you about financial planning tricks and pitfalls, but also, through numerous personal testimonies from ordinary people doing extraordinary things in their communities, shows you how to give back and contribute to the economic advancement to your community. Built on the unique premise of using the Bible's principles for money management, this book offers monetary planning and tools for enriching our lives in all areas. It is perfect for group Bible studies, as well as individual reflection. With this book, you will: Learn about financial planning through the lens of Scriptures Create a budget based on your own financial needs Learn how to trust God with your financial success Reflect on your fiscal situation with a reinforced confidence in God America urgently needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth a plan for growth, opportunity, and commitment that will propel this country to prosperity once again. Together, the Young Guns are changing the face of the Republican party and giving us a new

Current and fresh, yet firmly rooted in proven personal financial management techniques, this text features a conversational writing style that is highly readable and understandable. This textbook covers the individual's roles and financial responsibility as a student, citizen, family member, consumer, and employee. The New York Times bestselling coauthor of *Sex at Dawn* explores the ways in which "progress" has perverted the way we live—how we eat, learn, feel, mate, parent, communicate, work, and die—in this "engaging, extensively documented, well-organized, and thought-provoking" (Booklist) book. Most of us have instinctive evidence the world is ending—balmy December days, face-to-face conversation replaced with heads-to-screens zomboidism, a world at constant war, a political system in disarray. We hear some myths and lies so frequently that they feel like truths: Civilization is humankind's greatest accomplishment. Progress is undeniable. Count your blessings. You're lucky to be alive here and now. Well, maybe we are and maybe we aren't. Civilized to Death counters the idea that progress is inherently good, arguing that the "progress" defining our age is analogous to an advancing disease. Prehistoric life, of course, was not without serious dangers and disadvantages. Many babies died in infancy. A broken bone, infected wound, snakebite, or difficult pregnancy could be life-threatening. But ultimately, Christopher Ryan questions, were these pre-civilized dangers more murderous than modern scourges, such as car accidents, cancers, cardiovascular disease, and a technologically prolonged dying process? Civilized to Death "will make you see our so-called progress in a whole new light" (Book Riot) and adds to the timely conversation that "the way we have been living is no longer sustainable, at least as long as we want to the earth to outlive us" (Psychology Today). Ryan makes the claim that we should start looking backwards to find our way into a better future. This student workbook is designed to accompany the Personal Financial Literacy student textbook. The workbook includes activities for each chapter in the textbook and the Unit Projects. The following kinds of assignments are provided: Review of chapter key terms, True/false multiple choice questions, Building communication skills, Building math skills, Careers, Activities related to content. Discover pocket parks, beautiful boulevards, and great public gardens while learning offbeat facts that will make you see the Emerald City in a whole new way. This is THE book on anger, the first book to explain exactly why we get mad, what anger really is - and how to cope with and use it. Often confused with hostility and violence, anger is fundamentally different from these aggressive behaviours and in fact can be a healthy and powerful force in our lives. What is anger? Who is allowed to be angry? How can we manage our anger? How can we use it? It might seem like a day doesn't go by without some troubling explosion of anger, whether we're shouting at the kids, or the TV, or the driver ahead who's slowing us down. In this book, the first of its kind, Dr. Ryan Martin draws on 20 years plus of research, as well as his own childhood experience of an angry parent, to take an all-round view on this often-challenging emotion. It explains exactly what anger is, why we get angry, how our anger hurts us as well as those around us, and how we can manage our anger and even channel it into positive change. It also explores how race and gender shape society's perceptions of who is allowed to get angry. Dr. Martin offers questionnaires, emotion logs, control techniques and many other tools to help readers understand better what pushes their buttons and what to do with angry feelings when they arise. It shows how to differentiate good anger from bad anger, and reframe anger from being a necessarily problematic experience in our lives to being a fuel that energizes us to solve problems, release our creativity and confront injustice.
