[The Craft of Scientific Presentations](#) Mar 08 2022 This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

Dog Company Aug 13 2022 Now with a forward by Sean Hannity, this powerful story of brotherhood, bravery, and patriotism exposes the true stories behind some of the Army's darkest secrets. The Army does not want you to read this book. It does not want to advertise its detention system that coddles enemy fighters while putting American soldiers at risk. It does not want to reveal the new lawyered-up Pentagon war ethic that prosecutes U.S. soldiers and Marines while setting free spies who kill Americans. This very system ambushed Captain Roger Hill and his men. Hill, a West Point grad and decorated combat veteran, was a rising young officer who had always followed the letter of the military law. In 2007, Hill got his dream job: infantry commander in the storied 101st Airborne. His new unit, Dog Company, 1-506th, had just returned stateside from the hell of Ramadi. The men were brilliant in combat but unpolished at home, where paperwork and inspections filled their days. With tough love, Hill and his First Sergeant, an old-school former drill instructor named Tommy Scott, turned the company into the top performers in the battalion. Hill and Scott then led Dog Company into combat in Afghanistan, where a third of their men became battlefield casualties after just six months. Meanwhile, Hill found himself at war with his own battalion commander, a charismatic but difficult man who threatened to relieve Hill at every turn. After two of his men died on a routine patrol, Hill and a counterintelligence team busted a dozen enemy infiltrators on their base in the violent province of Wardak. Abandoned by his high command, Hill suddenly faced an excruciating choice: follow Army rules the way he always had, or damn the rules to his own destruction and protect the men he'd grown to love.

Navy Planning, Programming, Budgeting, and Execution Oct 11 2019 This tool documents key but enduring aspects of how the Navy implements the Planning, Programming, Budgeting, and Execution process so that action officers and Navy leaders can successfully navigate and effectively contribute to the process.

Brown Bag Lessons Apr 09 2022 Brown Bag Lessons, The Magic of Bullet Writing centers on effective bullet writing and guarantees immediate improvement. Skillful writing doesn't have to be difficult. No other book approaches writing the way this book does, and no other book teaches these techniques. After reading this book, you will fully understand how to write strong bullets and "why" every word matters. In 2003 the author created a seminar to teach a fair and consistent process to evaluate recognition packages. This seminar transformed an entire organization within six months. Since then, the techniques have decisively transformed the writing, recognition, and promotions of every organization applying them. The practices in this book continue to positively impact the Air Force and sister services through professional military education. In addition, the concepts have helped transitioning service members and college students better communicate acquired capabilities and competencies on their résumés. Read on to discover the "magic" and open your eyes to a brand new way to look at writing. The US Air Force promotion system emphasizes the importance of documenting your very best accomplishments. Under this system, promotion comes from the most recent performance reports, so Airmen must communicate the best accomplishments and not just words that fill the white space. This Magic of Bullet Writing will ensure you know how to articulate not just what you are doing but also convey your strongest competencies and capabilities so the promotion board can fully assess your readiness for promotion. Training materials that correspond to the lessons in this book are available for free download at <http://www.brownbaglessons.com>. Are you ready for the magic?

Oct 15 2022 Over 2,200 total pages !!! WARRANT OFFICER BASIC COURSE (WOBC) 1-18

INFORMATION Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a

commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT:

Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a "check in the block." It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

Mcdp 5 Planning Aug 01 2021 This publication describes the theory and philosophy of military planning as practiced by the U.S. Marine Corps. The intent is to describe how we can prepare effectively for future action when the future is uncertain and unpredictable. In so doing, this publication provides all Marines a conceptual framework for planning in peace, in crisis, or in war. This approach to planning is based on our common understanding of the nature of war and on our warfighting philosophy of maneuver warfare as described in Marine Corps Doctrinal Publication (MCDP) 1, Warfighting.

Warfighting Dec 05 2021 The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

Developing and Maintaining Emergency Operations Plans Nov 23 2020 Comprehensive Preparedness Guide (CPG) 101 provides guidelines on developing emergency operations plans

(EOP). It promotes a common understanding of the fundamentals of risk-informed planning and decision making to help planners examine a hazard or threat and produce integrated, coordinated, and synchronized plans. The goal of CPG 101 is to make the planning process routine across all phases of emergency management and for all homeland security mission areas. This Guide helps planners at all levels of government in their efforts to develop and maintain viable all-hazards, all-threats EOPs. Accomplished properly, planning provides a methodical way to engage the whole community in thinking through the life cycle of a potential crisis, determining required capabilities, and establishing a framework for roles and responsibilities. It shapes how a community envisions and shares a desired outcome, selects effective ways to achieve it, and communicates expected results. Each jurisdiction's plans must reflect what that community will do to address its specific risks with the unique resources it has or can obtain.

Slides for Students Jan 18 2023 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded "death by powerpoint."

Historical Painting Techniques, Materials, and Studio Practice Feb 13 2020 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Certain Victory Jan 14 2020 The official U.S. Army account of Army performance in the Gulf War, *Certain Victory* was originally published by the Office of the Chief of Staff, U.S. Army, in 1993. Brig. Gen. Scales, who headed the Army's Desert Storm Study Project, offers a highly readable and abundantly illustrated chronicle.

Iranian Naval Forces: A Tale of Two Navies Oct 23 2020 This updated resource provides a more comprehensive history, including: Iran's Persian imperial past, the spread of Islam, and the Iran-Iraq War The Islamic Revolutionary Guard Corps Navy (IRGCN) emphasizes an asymmetric doctrine to ensure national security in the Persian Gulf against regional neighbors and foreign presence. The Islamic Republic of Iran Navy (IRIN) employs a more conventional doctrine and focuses on forward

presence and naval diplomacy. Both navies have considerable equities and are well positioned to influence and leverage the Strait of Hormuz; a vital chokepoint for the flow of resources and international commerce. Illustrated with organizational charts, and photos of key Iranian leaders, including commanders within the Navy Command and Control Leadership, as well as rank insignia graphics, maps, ships, aircrafts, missile images, and more. Six Sigma for Powerful Improvement Dec 13 2019 Although the Six Sigma Define-Measure-Analyze-Improve-Control (DMAIC) methodology is a widely accepted tool for achieving efficient management of all aspects of operations, there are still many unwarranted concerns about its perceived complexity and implementation costs. Dispelling these myths, *Six Sigma for Powerful Improvement: A Green Belt DMAIC Training System with Software Tools and a 25-Lesson Course* clarifies the long-accepted statistical and logical processes of Six Sigma and provides you with tools you can use again and again in your own "real world" projects—removing any doubts regarding their simplicity and "doability.". Not only does the book provide you with reasons for using the tools, it reveals the underlying doctrines, formulas, and steps required. Although the tools and techniques presented are specifically associated with the DMAIC philosophy, they are applicable across a wide range of management and improvement scenarios. Explaining Six Sigma processes in language that's easy to understand, the book starts with an overview, followed by specific techniques and procedures. It presents detailed, illustrated lesson segments that include an agenda, roadmap, objectives, and a list of takeaway concepts. It also: Provides seven separate Excel tool templates—each with its own user guide and additional smaller tools Presents completed Excel sample workbooks for each tool to facilitate your comprehension and utilization confidence Includes downloadable resources with a PowerPoint-based DMAIC training course, the aforementioned Excel-based Six Sigma tools and workbooks, and extensive instructor's notes embedded in each lesson Trained as and employed as a Black Belt and later as a Master Black Belt, the author presents doctrines and procedures with a strong pedigree and history of success. The book uses hundreds of figures and tables to illustrate key concepts and also makes them available in full-color on the downloadable resources. This is also true of the figures in the user guides that document the accompanying tools. For each of the tools, the book includes a completed sample workbook. The PowerPoint and Excel lessons and tools are provided in both 2007 and 97-2003 versions.

[Project Escape](#) Jun 30 2021 Lucinda Jackson, a harried scientist and business executive, sets off to make a break from her corporate decades and have an "extraordinary" retirement. She launches into a five-phase "Project Escape," complete with a vision, goals, and a scorecard of success to deliver this next chapter. Soon, Jackson and her semi-reluctant husband of thirty years are off as volunteers to the government of the Pacific island country of Palau. But while Jackson got the girl out of the corporation, even the jolt of Palau can't fully get the corporation out of the girl. As she struggles through self-examination around purpose, identity, ego, marriage, and parenthood after years of investing so much in career, Jackson gradually learns who she is again. Whether you're thinking ahead to retirement or are already there, *Project Escape* provides an unvarnished but ultimately encouraging reference in navigating the "post-career" era.

Three Sigma Leadership Oct 03 2021 Congratulations on being selected as a Chief Engineer! You've been handed tremendous responsibilities and your success will play a huge role in achieving NASA's mission. Now what? *Three Sigma Leadership* is a practical guide through the challenges of leadership. It provides an overview of twenty-four key leadership skills, each described fully and backed with relevant real-life experiences from the author's career. NASA sets the bar high for its Chief Engineers, and *Three Sigma Leadership* explains those expectations in straightforward terminology. Each chapter provides familiar surroundings for engineers and speaks in their language, but also lays out the higher standard of leadership skills necessary to perform the job of a Chief Engineer.

Bioremediation Technology Aug 21 2020 Environmental pollutants have become a major global concern. The modern growth of industrialization, urbanization, modern agricultural development and energy generation have resulted in indiscriminate exploitation of natural resources for fulfilling the human desires and needs, which have contributed in disturbing the ecological balance on which the quality of environment depends. The modern technological advancements in chemical processes/operations have been raised to new products and also new pollutants in abundant level which are above the self cleaning capacity of the environment. One of the major issues in present times is the threat to human lives, due to the progressive deterioration of the environment. This book discusses bioremediation technology-based remediation to restore contaminated sites and protect the environment. It studies the opportunities for more efficient biological processes in molecular biology and ecology. Notable accomplishments of these studies include the cleaning up of polluted water and contaminated land. The book includes invited papers by eminent contributors who provide cost-effective bioremediation strategies to immobilize contaminants for cleanup of environment. The book is directed towards postgraduate students in biotechnology/life sciences/environmental sciences/biosciences and researchers in universities and research institutes and industries.

The Lion's Gate Jul 20 2020 From the bestselling author of *Gates of Fire* and *Killing Rommel*, the thrilling true story of one of the most unlikely and astonishing military victories in history. June 5, 1967. Israel is surrounded by enemies who want nothing less than her utter extinction. The Soviet-equipped Egyptian Army has massed a thousand tanks on the nation's southern border. Syrian heavy guns are shelling her from the north. To the east, Jordan and Iraq are moving mechanized brigades and fighter squadrons into position to attack. June 10, 1967. The Arab armies have been routed, their air forces totally destroyed. Israel's citizen-soldiers have seized the Gaza Strip and the Sinai Peninsula from Egypt, the Golan Heights from Syria, East Jerusalem and the West Bank from Jordan. Moshe Dayan has entered the Lion's Gate of the Old City of Jerusalem to stand with the paratroopers who have liberated Judaism's holiest site—the Western Wall. Drawing on hundreds of hours of interviews with veterans of the war—fighter and helicopter pilots, tank commanders and Recon soldiers, paratroopers, as well as women soldiers, wives, and others—bestselling author Steven Pressfield tells the story of the Six Day War as you've never experienced it before.
