Understanding the Nigerian Digital

Consumer Mar 18 2020 This book aims to guide both local and foreign investors who are looking at investing in Nigeria digital economy. This provides a glance into the Nigerian digital maturity, consumer- demographics and psychographics; also empowers them to make the right business decision. It serves to highlight the most common issues, giving the investor or entrepreneur a heads-up on challenges as well as recommended solutions. This will help them prepare adequately before venturing into the Nigerian digital business space. Thoughts are based on personal experience, observation, discussions and interviews of key stakeholders in the ecosystem. I have been there done that when it comes to digital entrepreneurship; albeit silently, as a side-preneur, which is typical of Nigerian context. Job security is a major issue so we cling to what we are sure of while trying other stuff. In my case I committed serious funds to what I believed in. This is a narrative of all my struggles and lessons and what I feel

we need to do to get things right. Of course, backed by actual facts and figures to justify my point of view.

Lady Problems Oct 13 2019 What's a Nigerian-Nordic-American girl to do when she develops fibroids in rural Iowa? Battle the American health care system or summon Nordic mythology and traditional Nigerian medicine? While at the renowned Iowa Writers' Workshop to write a book about meeting her African father and siblings as an adult, Faith Adiele develops a medical condition that can be interpreted—and treated— completely differently according to her three cultural backgrounds. Frustratingly, each tradition suggests that Adiele herself is responsible for her condition (and potential barrenness) for having violated gender or racial norms. While wittily detailing her struggles with doctors determined either to remove or to use her uterus as a Midwestern teaching tool, she

draws parallels to history: her Nordic family's immigration experiences, her Nigerian family's independence struggles, and the fate of women, the poor, and folks of color in American medicine. Adiele takes a clear-eyed, sharp-tongued look at healing, from Western science to a good metaphor to Nigerian healers advertising the cure for "Lady Problems."
