Mathematics Curriculum in Pacific Rim Countries - China, Japan, Korea, and Singapore Jun 23 2020 This volume contains the proceedings of the First International Curriculum Conference sponsored by the Center for the Study of Mathematics Curriculum (CSMC). The CSMC is one of the National Science Foundation Centers for Learning and Teaching (Award No. ESI-0333879). The countries—China, Japan, Korea, and Singapore (in alphabetical order, which also happens to be the order of their populations)—have each been in the news because of their performance on international tests and/or their economic performance and potential. They also have centralized education ministries that create a single mathematics curriculum framework followed in the entire country. In all these countries, curricula are differentiated for students with different interests, usually around Grade 10 or 11. We think the reader will agree that the papers are of very high quality, befitting the standing of the individuals who were

invited, but particularly notable for our international speakers because in three of these countries, English is not the speaker's first language. Following each paper, we have included a short biography of the author(s), so that the reader can understand the perspective of the paper's author.

Korean Horror Cinema Oct 20 2022 As the first detailed English-language book on the subject, Korean Horror Cinema introduces the cultural specificity of the genre to an international audience, from the iconic monsters of gothic horror, such as the wonhon (vengeful female ghost) and the gumiho (shapeshifting fox), to the avenging killers of Oldboy and Death Bell. Beginning in the 1960s with The Housemaid, it traces a path through the history of Korean horror, offering new interpretations of classic films, demarcating the shifting patterns of production and consumption across the decades, and introducing readers to films rarely seen and discussed outside of Korea. It explores the importance of folklore and myth on horror film narratives, the impact of political and social change upon the genre, and accounts for the transnational triumph of some of Korea's contemporary horror films. While covering some of the most successful recent films such as Thirst, A Tale of Two Sisters, and Phone, the collection also explores the obscure, the arcane and the little-known outside Korea, including detailed analyses of The Devil's Stairway, Woman's Wail and The Fox With Nine Tails. Its exploration and definition of the canon makes it an engaging and essential read for students and scholars in horror film studies and Korean Studies alike.

Capitalist in North Korea Dec 18 2019 Business in North Korea: a paradoxical and fascinating situation is interpreted by a true insider. In 2002, the Swiss power company ABB appointed Felix Abt its country director for North Korea. The Swiss Entrepreneur lived and worked in North Korea for seven years, one of the few foreign businessmen there. After the experience, Abt felt compelled to write A Capitalist in North Korea to describe the multifaceted society he encountered. North Korea, at the time, was heavily sanctioned by the UN which made it extremely difficult to do business. Yet he discovered that it was a place where plastic surgery and South Korean TV dramas were wildly popular and where he rarely needed to walk more than a block to grab a quick hamburger. He was closely monitored and once faced accusations of spying, yet he learned that

young North Koreans are hopeful—signing up for business courses in anticipation of a brighter, more open, future. In *A Capitalist in North Korea*, Abt shares these and many other unusual facts and insights about one of the world's most secretive nations.
